"Wilsonart, a world-leading engineered surfaces company, is driven by a mission to create surfaces people love, with service you can count on, delivered by people who care."

HISTORY

Ralph Wilson Sr. founded Wilsonart® (at the time named Ralph Wilson Plastics Company), in Temple, Texas as a producer of High Pressure Decorative Laminate (HPL). Wilsonart's first manufacturing facility was built directly across the street from their first company, a major school furniture manufacturer. Their original laminate orders were shuttled across the street on dollies to fill orders. By the end of the 1970's, Wilsonart® laminate had become one of the nation's leading brands of decorative laminate.

In 1986, in order to meet the increasing demand for Wilsonart® laminate, "Temple-North" — the world's most efficient, state-of-the-art laminate production facility — laid its roots in Texas. Since then, the facility has doubled in size and is among the largest of its kind in the world.

Throughout the 1980s and 1990s, Wilsonart's product diversification sped up to meet new market opportunities, such as:

- Wilsonart® Decorative Metals
- Wilsonart® Decorative Edges
- Wilsonart® Performance Laminates
- Wilsonart® Solid Surfacing
- Wilsonart® SOLICOR™ Laminate

The decades ahead brought even more new innovation, including:

- Wilsonart® RE-COVER™ Laminate
- Wilsonart® By You (WXY)
- Wilsonart® Virtual Design Library (VDL)
- Wilsonart® Coordinated Surfaces
- Wilsonart® Quartz
- Wilsonart® Traceless™ Laminate

Wilsonart® Engineered Surfaces signed an agreement in August 2019 to acquire Technistone, a.s., a world-leading manufacturer of quartz stone that has specialized in the industry for more than 20 years. The company is located in the heart of Europe, just outside of Prague. This acquisition represents a significant commitment to the Wilsonart® Quartz program and supports their mission to create surfaces their customers love.

High Pressure Laminate

Standard Designs

White Carrara 4924

Standard Laminate designs set the industry standard for performance, beauty, and variety. Pick from a variety of colors and patterns, each offering an attractive combination of great looks and superior value.

Available in over 180 patterns ranging from solids to abstract to woodgrains. All standard laminates come in #60 Matte and #38 Fine Velvet finishes.

After over 50 years, Wilsonart® continues to be the industry "go-to".

Premium Designs

Black Alicante 4926K

Premium Designs are a step up in design and performance.

In order to provide variety, Wilsonart® premium laminate is available in over 90 different designs and 10 different finishes that include: #01 - High Gloss, #07 - Textured Gloss, #12 - Soft Grain, #16 - Casual Rustic, #18 - Linearity, #19 - Leno Weave, #21 - Soft Silk, #22 - Antique, #28 - Gloss Line, #52 - Quarry, and #78 - Fine Grain.

Wilsonart® AEON™

Premium laminate designs feature exclusive AEON™ enhanced technology, making them: 3x more scuff and scratch resistant*, 3x more wear resistant**.

AEON™ is denoted by a K listed after the item number.

Spring Carnival 1877K

Wilsonart revolutionized laminate with Wilsonart® HD®, the world's first and only High Definition laminate.

HD® Laminates come in 4 different finishes: #35 - Mirage, #55 - Glaze, #57 - Aligned Oak, and #79 - Ridgewood. It's laminate like no other, HD® creates amazing optical dimension and clarity.

Wilsonart® AEON™

Wilsonart® HD® High Definition® Laminates also has AEON™ Enhanced Performance Technology, making them: 5x more scuff & scratch resistant* and 3x more wear resistant**. AEON™ is denoted by a K listed after the item number.

**Versus standard conventional laminate*

***Versus the industry benchmark for wear resistance*

Wilsonart® Enhanced Antimicrobial Protection Technology

All Wilsonart® HD® Laminates include Antimicrobial Protection technology.

Key Features:

- Antimicrobial Protection works through silver ions that are imbedded into the pressed laminate product.
- Antimicrobial Protection helps inhibit the growth of stain and odor causing bacteria.
- Wilsonart's Enhanced Antimicrobial Protection is built into the laminate so the protection won't wash away or wear off.

38 60	5'		4'		3'		2.5'	

#01 High Gloss - Premium

- A mirror sheen finish which has a smooth, brilliant appearance.
- Can be used for horizontal applications and excellent for vertical applications.
- Features AEON™, premium upcharge.

#07 Textured Gloss - Premium

- A textured finish which reproduces the high sheen of waxed wood furniture.
- Recommended for horizontal and vertical application.
- Features AEON™, premium upcharge.

#12 SoftGrain - Premium

- A wood grain structure that is low gloss and soft to the touch that creates a sophisticated raw wood look.
- Recommended for vertical or horizontal application.
- Features AEON™, premium upcharge.

#16 Casual Rustic - Premium

- A wood grain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen wood grain ticking and random highlights.
- Features AEON™, premium upcharge.

#18 Linearity - Premium

- A directional texture running the length of the sheet, having a narrow, random matte-gloss linear quality.
- Features AEON™, premium upcharge.

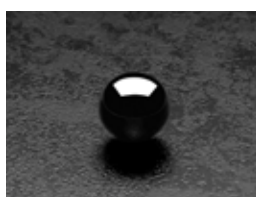

#19 Leno Weave - Premium

- Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss finish.
- Features AEON™, premium upcharge.

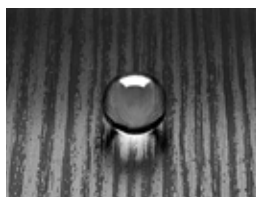

#21 Soft Silk - Premium (Factory Order)

- A smooth, ultra-matte texture that leaves a soft-to-the-touch sensation coupled with a low sheen.
- Recommended for horizontal and vertical application.
- Features AEON™, premium upcharge.

#22 Antique - Premium

- A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or antique metal.
- Recommended for horizontal or vertical application.
- Features AEON™, premium upcharge.

#28 Gloss Line - Premium

- A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas.
- Features AEON™, premium upcharge.

#38 Fine Velvet Textured - Standard

- A smooth textured finish with moderate reflective value.
- Recommended for horizontal and vertical application.

#52 Quarry - Premium

- Emulates the "pitted" look of polished natural stone.
- Recommended for vertical and horizontal application.
- Features AEON™, premium upcharge.

#60 Matte - Standard

- Textured finish with a moderate reflective quality.
- Recommended for horizontal and vertical application.

#78 FineGrain - Premium

- Features the polish and luxe of a real wood veneer, with a subtle, narrow, grain structure that runs the length of the sheet.
- Recommended for horizontal and vertical application.
- Features AEON™, premium upcharge.

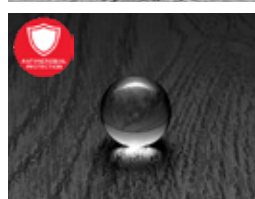

#35 Mirage - High Definition

- Subtle variations in matte and gloss: rough and weathered, smooth and polished.
- Not available in other designs and product types.
- Features AEON™, Wilsonart® HD® premium pricing.

#55 Glaze - High Definition

- A layering of matte features over a glaze of semi-gloss, creates this time worn effect.
- Features AEON™, Wilsonart® HD® premium pricing.

#57 Aligned Oak - Ultra Premium

- Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of the real world.
- Features AEON™, Wilsonart® HD® premium pricing.

#79 Ridgewood - Ultra Premium

- An overall matte finish with ridged dimensional features creating a linear woodgrain effect.
- Features AEON™, Wilsonart® HD® premium pricing.

AEON™ is 3x-5x more scuff and scratch resistant and 3x-4x more wear resistant. By raising the bar in performance, Wilsonart® also created a new standard for the laminate category that is redefining the market. AEON™ reduces scuffing in transit, on the job site, and during installation.

The benefits are very apparent with shiny surfaces and darker colors, opening up new applications.

Wilsonart® Compact Laminate

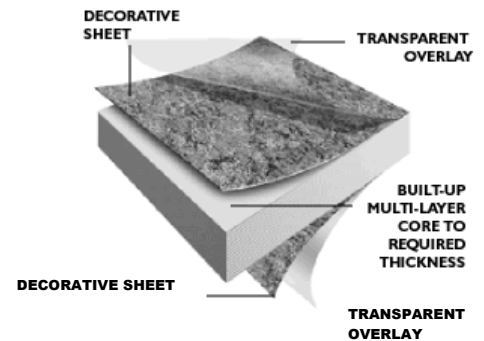

Solid Performance Through and Through

Sometimes the project just calls for a little more. A little more strength. A little more durability. A little more, well, toughness. That's when you can turn to Wilsonart® Compact Laminate. Available in a range of thicknesses, the panels can be coordinated or matched to the other Wilsonart® Laminate surfaces in your space.

Key Features:

- Durable, long-lasting and high-impact properties.
- Over 220 available designs.
- FSC Solutions available upon request.
- Engineered with a black color core.
- UL GREENGUARD Gold Certified for indoor air quality.
- Thickness from 1/10" to 1".
- Available in 4' x 8', 4' x 10', 5' x 8', 5' x 10' and 5' x 12' sheets.

Recommended for heavy-use applications such as:

- Toilet partitions
- Lockers and cabinets
- Wall Panel and room divider systems
- Wainscoting applications
- Elevator Cabs

Types:

- Type 114 - .110" - sanded one side
- Type 117 - .118" - sanded one side
- Type 514 - .100" - laminate two sides
- Type 515 - .125" - laminate two sides
- Type 569 - .250" - laminate two sides
- Type 568 - .50" - laminate two sides
- Type 571 - .312" - double faced
- Type 572 - .375" - double faced
- Type 575 - .75" - laminate two sides
- Type 590 - 1.00" - laminate two sides

Wilsonart® Solicor™ Laminate

Give Your Design Some Dimension

Wilsonart® SOLICOR™ (<http://www.wilsonart.com/solicor-laminate>) is a specialty laminate created with 5 solid color cores that let you design visually crisp and stunning spaces by eliminating the disruptive brown line at the edges.

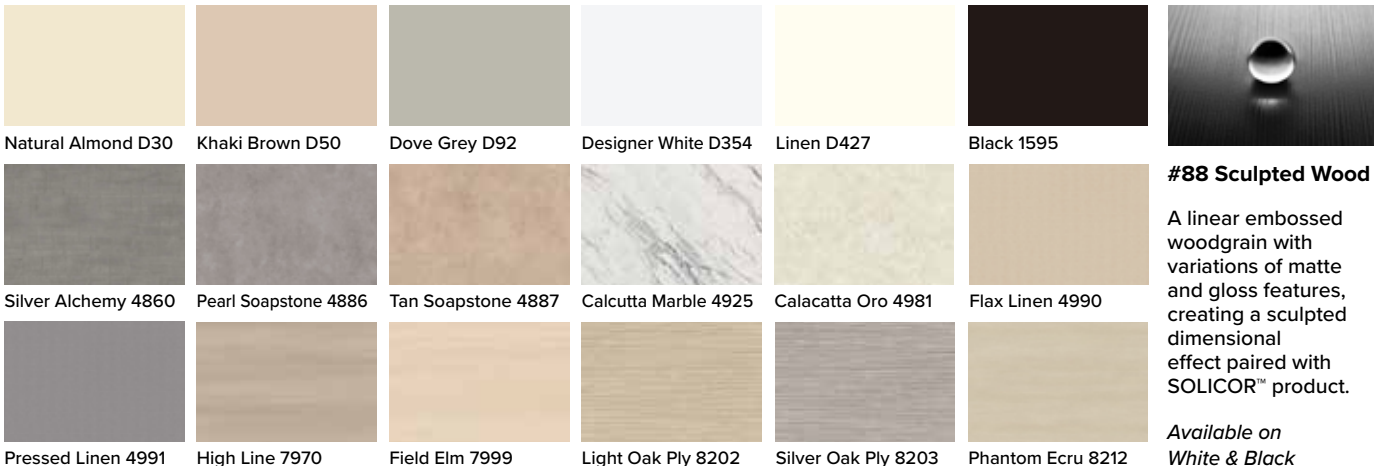

Equally stain-resistant and durable as the HPL, SOLICOR™ is available in Wilsonart's popular neutrals - **Designer White, Linen, Natural Almond, Khaki Brown, Dove Grey and Black** - and multiple decors from industrial plywood, linear woodgrains to fine velvety textured linens and stones for effortless aesthetic continuity.

Key Features:

- **Finishes Available:**
 - Grey Core - #07, #28, #38, #60 Finishes
 - Almond Core - #12, #28, #38, #60 Finishes
 - Khaki Brown Core - #12, #18, #28, #38, #60 Finishes
 - White Core - #01, #38, #60, #88 Finishes
 - Black Core - #01, #60, #88 Finishes
- Available in 4' x 8' sheets.
- Designed for both horizontal and vertical applications.

Recommended Applications:

- **Interior Applications**
 - Fine Quality
 - Contact Furniture
 - Fixtures
 - Casework
- **Architectural Application**
 - Interior Doors
 - Divider Systems

#88 Sculpted Wood

A linear embossed woodgrain with variations of matte and gloss features, creating a sculpted dimensional effect paired with SOLICOR™ product.

Available on
White & Black

Wilsonart® Solicor™ Compact Laminate

Key Features:

- 5 neutral core color options.
- This color through material works both vertically and horizontally.
- Different thickness and sizes available by design.
- Finish Option: #60 (#1 Finish is available on Black & White core only)
- Available in 15 Solicor™ designs.

Recommended Applications:

- Countertops
- Furniture
- Fixtures
- Partitions
- Doors
- Lockers
- Wainscoting
- Shelving

Wilsonart® Thinscape™ Performance Tops

Volakas Marble TS504

THINSCAPE™ Performance Tops feature 12 new elegant designs in an on-trend European-inspired "thin" profile. The perfect complement to today's thinner cabinet profiles, thin countertops are trending in residential kitchens everywhere. When paired with classic stone and wood grain designs, Wilsonart's THINSCAPE™ Performance Tops appeal to both contemporary and classic styles.

Key Features:

- 4 Finishes - Sandblasted (SB), Wire Brushed (WB), Natural (NL), and Luster (LR); unique to each design.
- Specified similar to other hard surfaces, produced in the US, reliable service and delivery.
- Fabricate with dry tools, easy corners and cut-outs, undermount sinks with ease.
- Provides design-to-core combinations and trending "thin" 1/2" profile.
- THINSCAPE™ slabs are a composite paper-based product.
- Water, stain, and impact resistant; easy to maintain.
- Size Availability - 30" x 10' and 12', 5' x 10' and 12'

Recommended Applications:

- Ideal for single & multi-family builds, commercial, hospitality, retail and office furniture.
- Kitchen countertops
- Bath vanities
- Laundry room worktops
- Table tops

Compact Laminate

GET TO KNOW THE DIFFERENCE

COMPACT LAMINATE

Sometimes, a project calls for a product that's going to stand up to a beating. Built for high performance, Compact Laminate is a self-supporting surface that requires no substrate or edgebanding; and each design features enhanced impact, moisture, scratch and abrasion resistance. Available in hundreds of designs, this long-lasting, durable solution for high-impact surfaces comes in a range of thicknesses up to 1".

SOLICOR™ COMPACT

SOLICOR™ Compact Laminate fills a new void in the marketplace. An evolution of Compact Laminate, yet benefited by the same durable make-up that Compact provides, SOLICOR Compact is created with a solid color core that offers a seamless, crisp appearance all the way to the edges. Available in four monolithic colors and a range of color-through decors, SOLICOR Compact allows for greater design flexibility; even complex designs such as engraving and sharp edging detail.

THINSCAPE™ PERFORMANCE TOPS

THINSCAPE™ Performance Tops are the latest evolution in engineered composite surfaces. As a self-supporting surface that requires no substrate, THINSCAPE is highly resistant to impact, scratch and moisture. Featuring an ultra-thin 1/2" construction with a solid color core that can be easily fabricated to achieve various edge profiles, THINSCAPE is available in a range of modern designs and finish combinations that effortlessly complement today's thinner cabinet profiles. Designed with enhanced performance technology, THINSCAPE offers long-lasting, attainable luxury for any project in commercial or residential spaces.

Wilsonart® Chalkboard

Let's Talk Chalk

Graphite Nebula 4623

Thanks to extensive research and a new product development in overlays, Wilsonart® Chalkboard Laminate functions above and beyond that of typical slate chalkboards. Available in a classic color, Graphite Nebula, Wilsonart® Chalkboard is perfectly suited for a variety of spaces and applications that demand a durable and affordable chalkboard surface.

Key Features:

- Easily maintained with no annual "seasoning".
- Vertical or horizontal application.
- Intended for interior use only.
- Re-Cover option is available.
- Color: Graphite Nebula.
- Available in 4' x 8' Sheets.

4623-38
Graphite Nebula

Recommended Applications:

- Schools and day care centers
- Corporate conference rooms, training centers, and break rooms
- Restaurants
- Offices
- Message Boards

Wilsonart® Markerboard

Make Your Mark

Black 1595

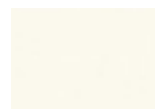

No matter where it's used, from conference rooms to hospital cafeterias, Wilsonart® Markerboard Laminate offers great versatility and decorative opportunities, especially when compared to porcelain or epoxy-coated steel.

Key Features:

- Dual purpose board for projection and dry-erase writing.
- Durable gloss finish in a soft white color.
- Cost effective dry-erase surface.
- Easy to fabricate using laminate methods.
- Low maintenance and easy clean-up.
- Colors: Frosty White, Antique White, and Black (use wet erase only).
- Available in 4' x 8' and 4' x 12' sheets.

Recommended Applications:

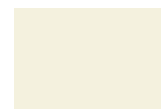

- Classrooms
- Athletic Facilities
- Menu Boards
- Businesses
- Home Offices

CHEMSURF® Chemical-Resistant

Where Function + Form Really Add Up

When you need to specify a surface that is resistant to the harshest of acids, bases, and solvents - but not at the expense of design and style - Wilsonart® Chemsurf® Chemical-Resistant Laminate answers these challenges. Specifically designed for highly corrosive environments, Chemsurf® provides exceptional chemical resistance in most Wilsonart® Laminate standard designs. This versatile laminate is not only lighter in weight, but is often less expensive up front, and over its life cycle, than slate, stainless steel, or epoxy. It is ideal also for applications where harsh cleaning agents may be over-used and damage other decorative surfaces.

Key Features:

- Intended for horizontal, vertical, and postformed work surfaces, including those featuring a simple radiused edge. Such postforming eliminates seams which are otherwise vulnerable to chemical attack. Type 390 may be applied to any horizontal or vertical surface where functional, durable, decorative material should also be chemical resistant.
- Postformable for no-drip edges.
- Available in 4' and 5' widths, and 8', 10', and 12' lengths.
- 4' x 8' and 5' x 12' - 1 sheet minimum
- 4' x 10', 4' x 12', 5' x 8' and 5' x 10' - 8 sheet minimum
- #60 matte finish texture.
- Available in most Wilsonart® Laminate standard designs.

Recommended Applications:

- Cabinets, case work, counters, and countertops in chemistry, biology, and pharmaceutical laboratories
- Hospitals, medical/dental examination rooms
- Dialysis centers
- Nurses' stations and pathologists' work rooms
- School labs
- Photography labs and darkrooms
- Beauty salons
- Product testing facilities

Highly Specialized to Take the Heat

If you're looking for beauty and durability in a fire-retardant surface, you can't do better than Wilsonart® Fire-Rated Laminate. Scientifically formulated to resist extreme heat, Fire-Rated Laminate comes in a variety of colors and patterns that look great in any setting. This long-lasting, beautiful laminate meets or exceeds the code from a variety of laboratories across the country and comes in the size and finish to fit your needs.

Key Features:

- Fire-retardant treated kraft phenolic core.
- 3 laminate types - General purpose types 605, 607, and Vertical Type 604.
- 2 size options - 4' x 8' and 4' x 10' (2 sheet minimum).
- 2 Backer thicknesses - Types 264 (.030) and 266 (.050).
- Offered in 3 finishes: #60 Matte, #07 Textured Gloss, and #01 Gloss.
- Available in most Wilsonart® Laminate standard designs.

Recommended Applications:

- Furniture, cabinetry, and fixture cladding
- Wall panel and room divider systems
- Wainscoting applications
- Interior fire-rated door cladding
- Elevator cabs

Wilsonart® High Wear

Tough Enough to Take it

Uptown Walnut 7971K

Some surfaces simply have to take a beating and still keep their good looks. That's where Wilsonart® High Wear Laminate comes in. Built to take the extra wear that comes with high traffic commercial projects. Wilsonart® High Wear Laminate is more than seven times the industry standard for abrasion resistance on high pressure laminate. A low-cost alternative to stone, granite, or any other hard surfaces, with improved wear resistance over standard laminate, Wilsonart® High Wear Laminate is also available in hundreds of colors and designs, and a wide variety of sizes.

Key Features:

- More than 7x the abrasion and scuff resistance than traditional laminate.
- 3 product types: 107HW-General Purpose, 335HW-Vertical Grade, and 350HW-Postforming.
- Available in 4' and 5' widths and 8', 10', and 12' lengths.
- #60 Matte finish texture.
- Available in most Wilsonart® Laminate standard designs.

Recommended Applications:

- Transaction counters
- Cafeteria tabletops and service areas
- Computer work stations and desktops
- Business offices, nurses' stations, and libraries
- Hematology labs
- Reception areas

Ready to Renovate?

RE-COVER™

re-cov-er [ri kúvver]

- 1) to regain something: to get back something previously lost.
- 2) an innovative new option for laminate combining a vertical grade laminate and adhesive into one product.

It might just be the most economical and practical way to refresh a dated cash wrap, store fixture, or hot pink bathroom countertop that seemed like such a good idea back in '84.

your time

Just three easy steps can transform a space

your style

Quickly replace a dated design with any standard grade laminate from Wilsonart's vast product line

your costs

- Use existing fixtures
- Minimize business disruption
- Shorten fabrication time

your planet

- Reusing fixtures eliminates waste
- No added VOC's into the atmosphere or work environment

Asian Night 7949K

Old Mill Oak 7973K

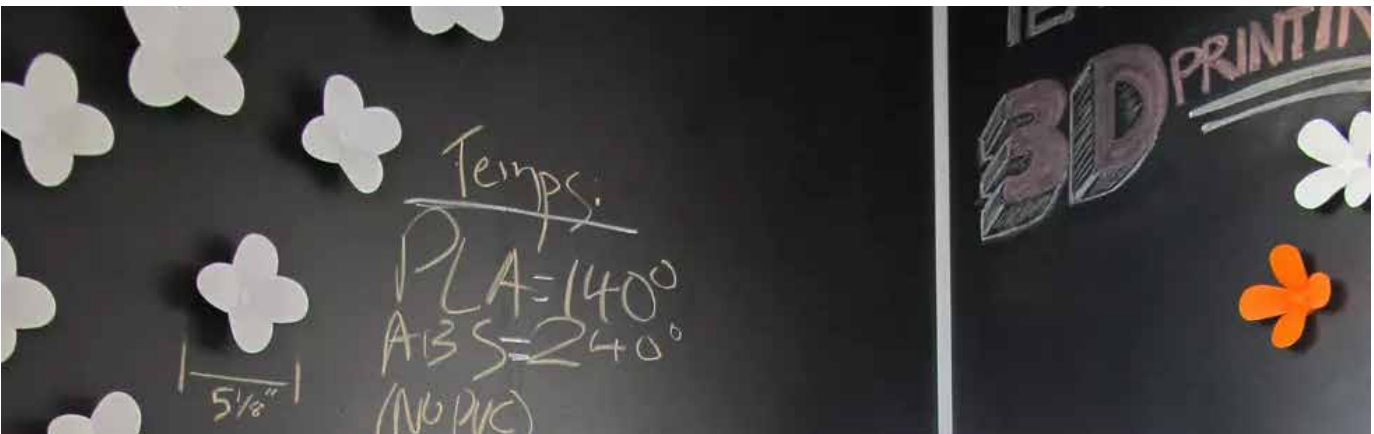

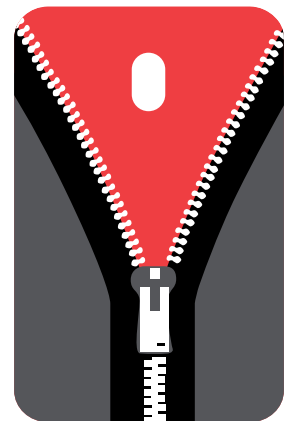

Key Features:

- Patterns: All (standard (DGI), non promoted (DGII), WxY, VDL, compact laminate)
- Finishes: All (as indicated on pattern availability in type 335, 362, 364, 367, & 376)
- Sizes: 4' widths only and 8', 10' & 12' lengths.
- Minimum: same rules and requirements for HPL in type 335, 362, 364, 367, & 376
- Now approved for painted and stained surfaces.
- Now has trimmed, smooth edges on the sheet of laminate.
- Now approved for Flat Self-Edge on raw substrates.
- Now approved for Decorative Metals. (It is highly recommended this ships flat)

Recommended Applications:

Designed to be used in interior applications:

- Cased goods
- Furniture
- Store fixtures
- Doors
- Tables
- Cabinets
- Should be bonded to a suitable substrate such as particleboard, medium density fiberboard, plywood with one "A" face, previously bonded high pressure decorative laminate, or low pressure laminate.
- May be installed on flat surfaces in both horizontal (in areas of low heat) and vertical applications.

Graphite Nebula 4623

Fabricators Supply is proud to be the exclusive licensed distributor for Realtree™ camouflage patterns on Wilsonart® Custom Laminate. Realtree™ and Advantage are the most recognizable and visible brands in the outdoor marketplace. The natural good looks of these patterns can be seen on hunting clothing and other outdoor gear.

Key Features:

- State of the art digital process
- Used in any traditional laminate application
- Vertical or horizontal use
- Stain & scratch resistant
- 3' and 4' widths, 8', 10' and 12' lengths

Recommended Applications:

- Man caves
- Garage
- Cabins
- Tabletops
- Wall cladding

These designs are produced using Wilsonart's custom digital process that has been utilized over the years for logos and custom designed graphics and can be used in any application calling for standard laminate. The graphic design becomes an integral component of the finished laminate and has the stain and scratch resistance of High Pressure Laminate.

Say Goodbye to Grout

Maltese Grey BA002

Completely seamless and smooth-to-the-touch, Wilsonart® Backsplash makes it easier than ever to clean up spills and splashes! A quick, easy-to-install and affordable alternative to traditional tiles, Wilsonart® Backsplash can refresh the look of a kitchen in just a few hours, and have long-lasting brilliance. Plus, let's face it. Grout can be gross. And with this grout-free acrylic surface, any chance of mold or mildew building up is completely eliminated!

Key Features:

- Easily/quickly installed with silicone for seams and application to substrate.
- Not recommended for install behind gas cooktops and gas slide-in ranges.
- Provides a high-level of design, east to install - great value for customers.
- On-trend designs provide designers/consumers a variety of choice.
- Can be installed directly over drywall, painted or unpainted.
- Great DIY product for the weekend warriors.
- No special tools required.
- Available in 19" x 120" and 32" x 38" sheet sizes
- 4mm Sheet Thickness

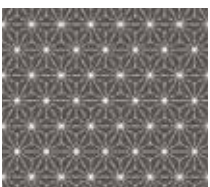

Recommended Applications:

- Kitchens*
- Bathrooms
- Walls
- Ceilings

* Not recommended behind gas cook tops or gas slide in ranges.

More Than Just the Wallboard

Designers have searched for more design choices - in fabrics, wall coverings, furnishings, and no less so, in laminates. Now Wilsonart® has the answer - but it is not on the wallboard, it is online... the Virtual Design Library (VDL). A leading manufacturer of decorative surfaces for more than 50 years, Wilsonart® responds to the designers need for more. With over 500 curated, evolving designs, the expanded design library was developed with two guiding factors: make it different, and make it easy. You get more without having to do more!

Key Features:

- 10 themed categories
- Photorealistic imagery
- Speedy turnaround - 21 days factory to fabricator
- Standard sheet size - 4'x8' and 5'x12'
- Wide variety of finishes
- Both vertical and horizontal application

Recommended Applications:

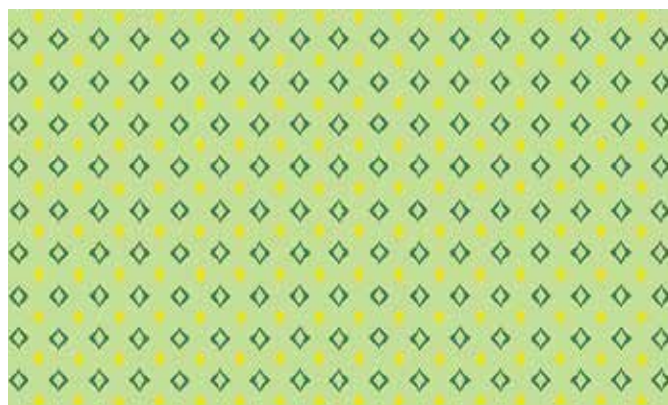

- Residential and Contract furniture
- Fixtures and casework
- Columns
- Wainscoting
- Interior Doors and Dividers

Woodgrains - Inspired by nature, Woodgrains add warmth to interiors everywhere. They are nature's neutral while adding so much more. Wilsonart's collection stretches beyond traditional looks at times and touches on trends with graphic interpretations.

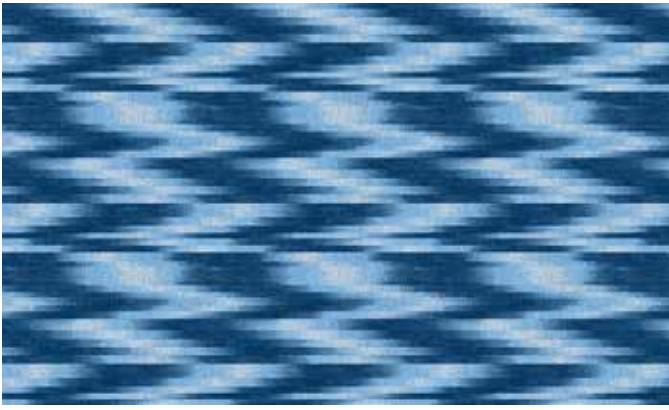

Materials - Showcasing the versatility of natural and man-made materials, our new materials category demonstrates the diversity of surfaces that cover our world. Ordinary materials such as stone, concrete, metal and paper have been reinterpreted by pushing the limits of expected visuals with surprising beauty and practical aesthetics.

Retro - The Retro collection has a fun, lively feel to it, with wild designs, bright colors and a general sense of "flair". Organic shapes and graphic patterns, together with modern, abstract artistic styles convey some of the rediscovered ease of living during simpler times.

Abstracts - Wilsonart's abstract designs embody a mix of bold and soft patterns that are layered with textures, shapes, and forms. These looks add a unique touch to any space.

Graphics - Can have cultural, exotic, or historical references adding layers of interest. Whether they are dramatic or subtle, they create bold distinction and visual impact through forms and color.

Out of the Box - A mix of delectable, youthful, and whimsical designs that are naturally fun. These are perfect fits for children's spaces or projects that need a little extra joy.

Scandinavian - Bohemian - A fresh fusion of styles that offers endless design possibilities, this collection combines the simplistic and earthy features often hailed in Scandinavian minimalism with the laid-back, eclectic aesthetic found in Bohemian maximalism.

Playful - Delightfully retro colors mix with natural wood-inspired and abstract patterns for a play on "vintage meets modern" designs.

Ambiguous - This collection features artful visual contradictions in material layering, along with a sophisticated blend of new technologies paired with traditional design.

Spectrum - This color-friendly design category pairs subtle, layered design with a spectacular range of colors. Spectrum includes the Crossweave and Honeycomb series which feature curated colors in a cross-directional design with a woven feel and a small-scale hexagon design, respectively.

Spectrum

SPECTRUM

BRING YOUR CURIOSITY, BRING YOUR IMAGINATION, BRING YOUR SENSE OF ADVENTURE.

EXPLORE NEW SURFACES. EXPLORE WILSONART®.

This color-friendly category pairs subtle, layered design with a spectacular range of colors. Spectrum includes the *Crossweave* and *Honeycomb* series which feature curated colors in a cross-directional design with a woven feel and a small-scale hexagon design, respectively.

Spectrum revolves around tone-on-tone patterns that can be specified in nearly any color, to match an existing color standard. Want to customize a Spectrum color that's all you? You can easily customize any Spectrum design to match most solid color standards: paint, fabric, and more.

HOW IT WORKS

Choose from one of our 52 on-trend colors.

OR

Find a color swatch of the fabric/paint/etc., color you are trying to match.
Send it in to us to get the best match possible of that color in our Spectrum designs.

SUBMITTING COLOR SWATCHES

- Fill out a form online at www.wilsonart.com/spectrum-custom-order-form.
- Use an industry-standard color matching system (eg. Pantone uncoated) or paint color (eg. Benjamin Moore, Pittsburgh Paint, Sherwin Williams) and simply provide us with the color number and name.
- Submit a solid color swatch (2"x2" preferred).
- Our digital team will make every attempt to provide you with a Spectrum, color-matched sample within 5-7 working days.
- The sample will be a standard 'lab size' sample (15" x 19") and will consist of 4 color variations representing our 4 best options for match. Only one sample can be sent for approval.
- While we make our 4 best attempts on the sample, not every color is possible to match. Uncoated color targets generate the best results, while coated targets and/or metals are difficult to near impossible.

BLUEBERRY TAFFY Y0355

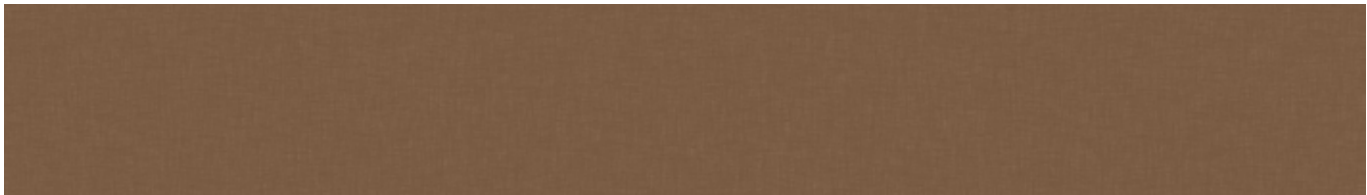

BASIL HONEYCOMB Y0685

“Designers are always seeking out more color options with added dimension and visual interest. Spectrum was designed specifically to meet this need, pairing subtle, layered design with an unlimited range of colors that also meet the standard color matching systems.”

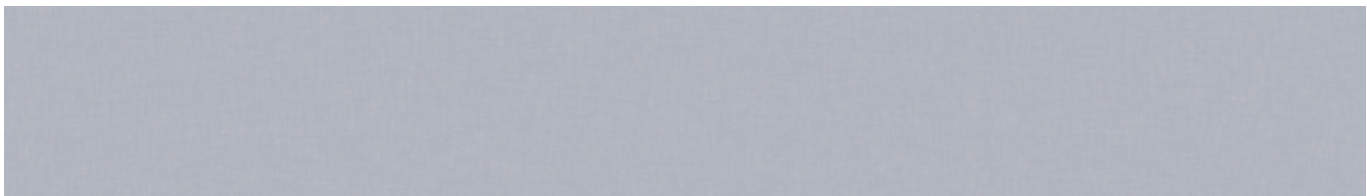

- Andrea Flint, *Wilsonart Designer*

SPECTRUM METALS

Wilsonart® has added 15 metal colors in the cross weave option.

LIGHT OIL BRONZE Y0381

POLISHED SILVER Y0391

Introducing the Perfect Pattern, Yours

Sometimes the perfect pattern doesn't exist. At least not yet. That's why Wilsonart® created Wilsonart By You. Entirely custom, entirely you. Bring your own artwork, photographs, or illustrations and we'll create a laminate that matches your vision. Perfectly.

Key Features:

- Vertical and horizontal use
- Available in 3', 4', and 5' widths
- Available in 8', 10', and 12' lengths
- Comes in 5 finishes:
 - 01, 07, 38, 60, 90

Recommended Applications:

- Tables
- Work Surfaces
- Wall Panels
- Wainscoting
- Columns
- Doors
- Case Goods
- Accent Spaces
- Divider Systems

Wilsonart's mastery of high-speed digital printing technology allows any designer to easily create a signature design, Wilsonart By You brings full customization to designers everywhere, no matter how small or large their design and specification challenge.

Until now, designers, architects, and specifiers found custom design too cumbersome and too complicated. With Wilsonart By You, anyone anywhere can easily, quickly, and efficiently tap laminate's limitless design potential to create any pattern that they can imagine. They can easily showcase graphics, replicate artwork or photography, opening the door to true personalizing of space, one laminate sheet at a time.

How to Wilsonart By You

Wilsonart By You design services are easy to access. To begin the process, designers send their own image files in print-ready vector (Illustrator) or raster (Photoshop) formats to www.Wilsonart.com/WilsonartxYou (<http://www.wilsonart.com/wilsonartxyou>).

The Wilsonart By You team will first provide an image for review, and then a sample for color and layout approval - often within a few days of receiving artwork. Once a sign-off is received, then customized Wilsonart® Laminate can be produced and shipped within 2-3 weeks.

The Wilsonart By You offering is a true customization service with no minimum orders, making it practical for use by individual graphic designers or small architectural firms that are looking to showcase a particular surface to make it stand out. Yet the high speed process and state of the art equipment can just as easily produce hundreds of sheets in a timely manner, for large or national projects.

Wilsonart By You transforms anything. Turn a simple table into the focal point of a room. Incorporate oversized graphics to create dramatic wall panels or accent spaces within a large room. Transform any interior space into a setting that underscores brand identity.

The Lujo Collection

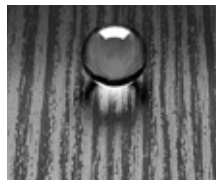

Dering Forest 8226

Full of luxurious, dimensional woodgrain texture and colors that evoke the warmth of home sweet home, Wilsonart's LUJO (pronounced loo-hoh) Collection includes seven designs in the new ultra-premium Ridgewood Texture Finish (-79), of which six are new introductions, and one an existing design. The collection also includes six existing designs in Wilsonart's premium Gloss Line finish (-28).

#79 Ridgewood Finish

#28 Gloss Line Finish

A New Take on Edgy Design

Winter Carnival 1874

Wilsonart® Decorative Edges add the perfect finishing touch to tables, desks, and reception counters. Choose from hundreds of Wilsonart® Laminate colors, patterns, and textures. Customized to your specifications, Decorative Edges create a clean, finished look that easily and affordably transforms surfaces into sculpted architectural details. Because they offer a totally tailored finish to any of our laminate surfaces, Decorative Edges can be a subtle, or not so subtle, completion to any environment.

Key Features:

- Hundreds of colors and patterns
- Create a clean, finished look
- Cost effective way to enhance top
- No brown seam line

Recommended Applications:

- Lunchroom tables
- Conference rooms
- Company kitchens
- Residential homes
- Islands & Work Surfaces

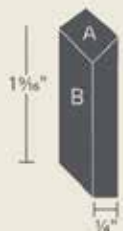

A **Beveled Edge** is strong, crisp and classic, evoking the polished image of cut and chamfered stone.

A **Crescent Edge** invites the eye and warms up decor with soft curves at top and bottom.

Decorative Edge Profile

When ordering, specify profile type and pattern/finish for each face.

Beveled Profile [FE]

Crescent Profile [FE]

Coordinated Surfaces

How often has your design vision been compromised by product availability, performance expectations or budget? Wilsonart® Coordinated Surfaces ensures you can protect your design with a variety of products to meet your requirements - all based on Wilsonart's expansive design library.

More Choice - Matching Pattern and Texture in high performing High Pressure Laminate, cost-effective TFL Panels, and Edgeband in a variety of designs and finishes.

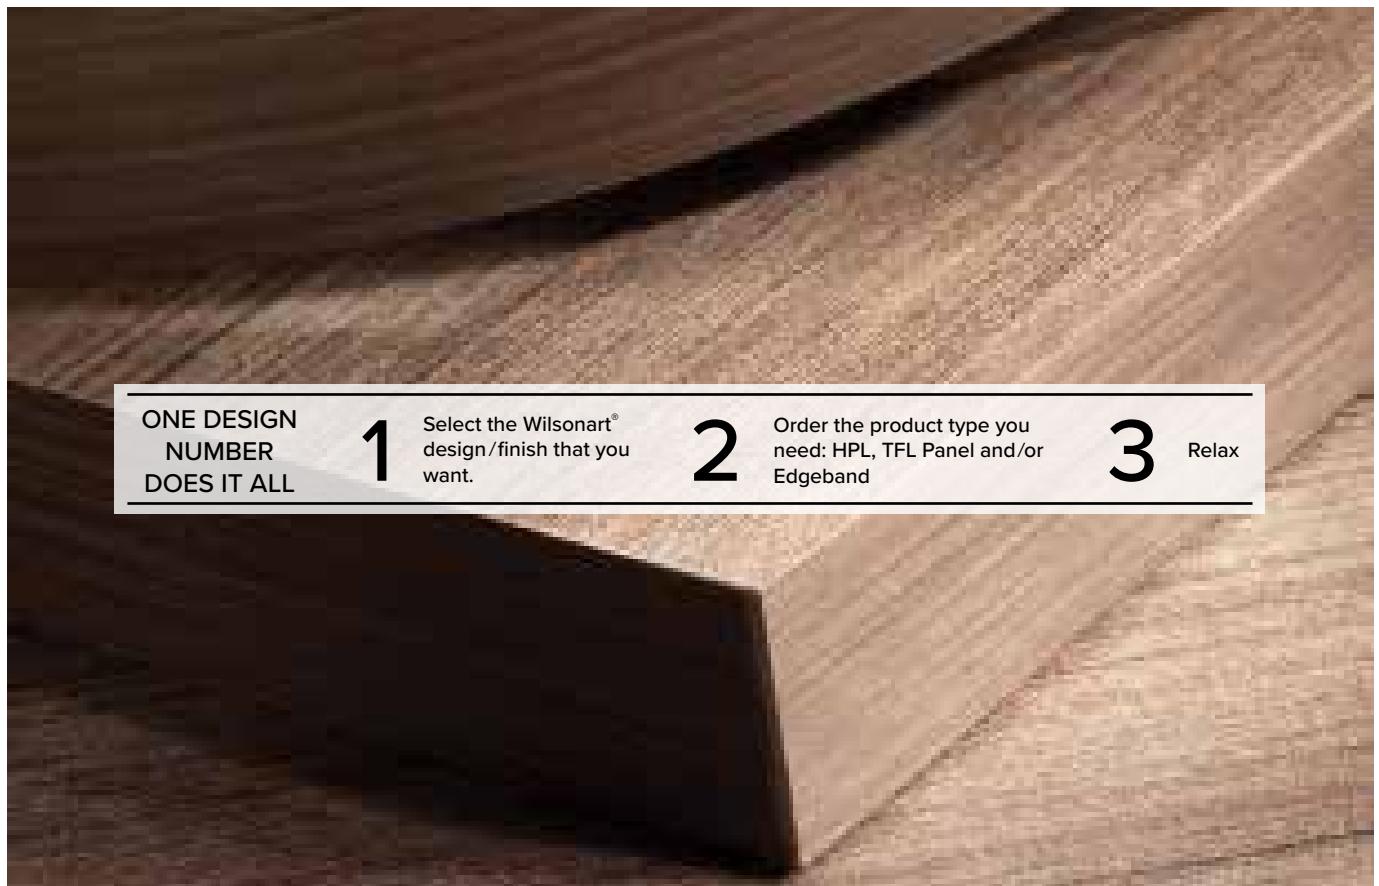

Save Time - Your time is valuable, when you specify Wilsonart® you can easily move between product and performance types based on the needs of your project. The Wilsonart® design number works across any product type.

Protect your Design Vision - Wilsonart® TFL Panels use the same decors and textures as Wilsonart® HPL. Even the Edgeband is matched by our demanding design team. So, your designs stay - amazing!

Coordinated Surfaces					
	Contract Wallboard Patterns	Woodgrains	Abstracts/Patterns	Solids	Edgeband Matched
HPL	258	1, 7, 12, 16, 18, 28, 38, 60, 78, 79	7, 18, 38, 60	7, 38, 60	✓
TFL*	237	7, 12, 18, 38, 60, 78	7, 18, 38, 60	7, 38, 60	✓

*Excludes: HD patterns, 52 finish patterns and gloss patterns.

At last, an Edgeband solution that complements many Wilsonart® Laminate designs. Offering matching textures and designs, Wilsonart® Edgeband is a cost-effective edge solution for your commercial projects.

Key Features:

- More heat resistant than traditional HPL strip edging.
- Minimizes heat shrinkage issues.
- Minimizes attraction of dust.
- Lighter weight than traditional HPL strip edging.
- Easier to handle than traditional HPL strip edging.
- No special set-up, machining, or adhesives.
- Complements over 200 Wilsonart® designs.
- Comes in two widths: 15/16" and 1-15/16"
- Comes in two lengths: 600L/F and 328L/F
- Available thicknesses: .018", .020", 3MM
- Standard stock size: 15/16" x .018"
- Finishes: Super Matte to High Sheen.

Recommended Applications:

- Cabinets
- Cabinet drawers
- Drawers
- Shelves
- Tables
- Furniture
- Fixtures
- Countertops

Wilsonart® Door Program

Broaden your capabilities and harmonize your design with 17 select Wilsonart® design and finish combinations in moldings and cabinet door components. Wilsonart® offers five molding profiles and three rail/style profiles with no minimums required for in-stock designs and flexible minimums for the made-to-order designs from the Wilsonart® Coordinated Surfaces program.

Key Features:

- Finished, 5-piece door fronts in Wilsonart® designs.
- Best match of design and texture in 17 Wilsonart® designs, across multiple product lines (HPL, TFL, Edgeband, doors, & moldings).
- All doors are special order to your customers dimensions.

Recommended Applications:

- Single & Multi-family cabinetry
- Kitchens
- Bathrooms
- Closets
- Commercial Casework

TFL Panels

Introducing CERTIFIED TFL PANELS from Wilsonart®

An innovative solution that overcomes the most challenging design requirements.

For the first time in the industry, the leading manufacturer of HPL decorative laminate offers unparalleled match in design and textured finish for Thermofused Melamine Panels and Edgeband.

A revolutionary, new concept created to make your life easier.

Wilsonart® Coordinated Surfaces - HPL, TFL, Panels, and Edgeband - offer the best matching designs and textured finishes in materials that meet your wide ranging needs for performance and price.

Hundreds of designs available.

The Wilsonart® TFL Panel program offers over 200 standard designs and 9 exclusive textured finishes - more than any other TFL program out there. Wilsonart® Edgeband finishes the story - making it hard to tell where HPL and TFL begin and end.

Both laminates come in 4' x 8' and 5' x 8' panels. Wilsonart® TFL Panels are available with a wide variety of substrates including particleboard, MDF, NAUF/ULEF, moisture resistant, and fire-rated.

Key Features:

- Complete a suite of products unmatched in the industry for coordinated color, pattern, and finish selections.
- Designed for interior applications only.
- Standard panel widths are 49 and 61 inches.
- Standard panel length is 97 inches.
- Custom widths and lengths are available upon special order.
- Thicknesses range from 3/8" to 1-1/8" depending on core material.
- Come in no-added-urea-formaldehyde and moisture-resistant options for fabrication.
- Available in over 200 designs and 9 finishes.

Recommended Applications:

- Decorative wall panels in commercial and retail settings
- Cabinetry
- Furniture
- Shelving
- Store fixtures
- Closet systems

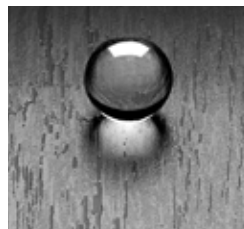

The 9 TFL Finishes Include:

Textured Gloss #07

SoftGrain #12

Casual Rustic #16

Linearity #18

Gloss Line #28

Fine Velvet Textured #38

Matte #60

FineGrain #78

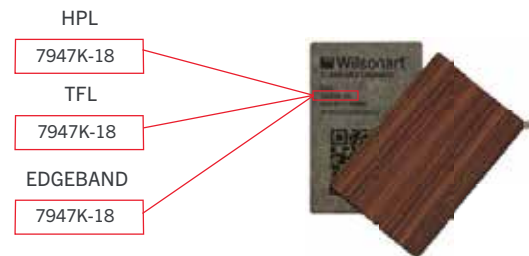

Ridgewood #79

Don't Settle for Someone Else's Value Engineered Solution

Value Engineering (VE) is a reality in today's world. Thanks to Wilsonart, you do not have to sacrifice your design integrity to meet budget cuts and constraints. Wilsonart Coordinated Surfaces allow you to specify HPL, TFL, and Edgebanding surfaces with the confidence that the look and feel of your project will not be changed down the line.

Easy Specification

Use the same code to easily specify all three surfaces for a perfectly coordinated solution

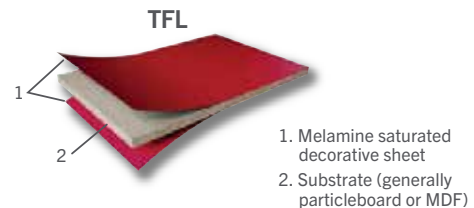

HPL Wilsonart® HPL

- Resilient wear-resistant surface for long-lasting durability
- Thrives in high-use applications such as doors, desks and dressers
- Environmentally friendly
- Available in over 300 designs and 16 finish options

TFL Wilsonart® TFL

- Industry's best-matched TFL solution for design and texture
- Available in 230 matched designs and 9 finishes
- Cost effective solution for low-touch applications
- Maintains visual continuity without compromising design

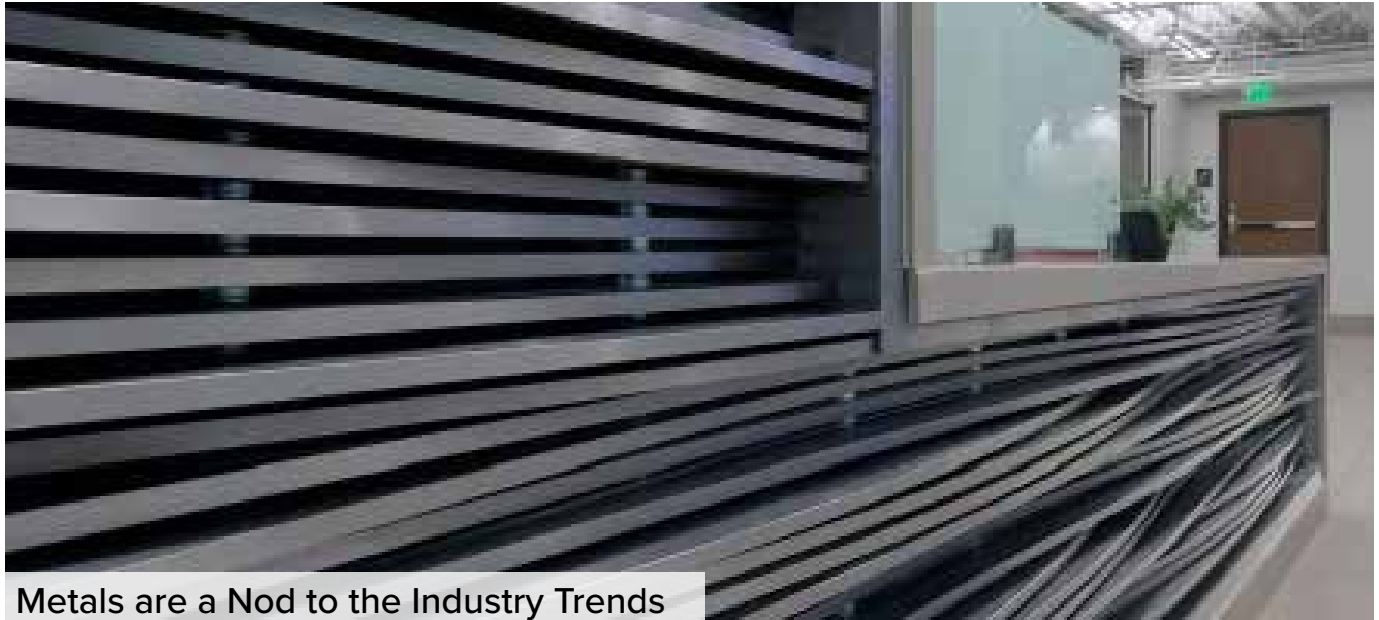

EB Wilsonart® EDGE BAND

- Industry's only one-to-one design and texture match
- Complements and maintains the visual aesthetic
- Available in 227 matched designs and 9 finishes
- Best Value engineered solution for the budget-conscious

To take advantage of Wilsonart Coordinated Surfaces solution, simply specify Wilsonart HPL, TFL and Edgeband from our broad selection of colors and patterns and only allow substitutions with other Wilsonart products. Not all so-called Wilsonart matches are certified as **Wilsonart Coordinated Surfaces** - be sure to specify it by name!

Metals are a Nod to the Industry Trends

The metals join a timeless group of classic patterns that have remained favorites among designers for their beauty, durability, and versatility. Whether used for vertical or ceiling applications or as an accent banding on countertops, the Wilsonart® Decorative Metals line is surprisingly adaptable and virtually unbreakable. Available in anodized and non-anodized aluminum, the uses and effects of Wilsonart® Decorative Metals are only limited by your imagination.

Ribboned Brite Brushed Sterling L6444

Key Features:

- 33 options.
- Designed for interior use only with a wide range of vertical and horizontal applications.
- Available in 4' x 8' and 4' x 10'
- All metal laminates are phenolic backed as standard options.

For resurfacing over suitable existing substrates, Wilsonart® also offers their unique RE-COVER™ self-adhesive decorative metal product.

SEQUIN BRITE BRUSHED STERLING
L6449

SEQUIN SATIN BRUSHED PALLADIUM
L6451

Redefine luxury and sophistication with striking patterns that are beautiful enough to be unique pieces of art.

Colors include copper, bronze, silver, gold, grey, and blue-grey. Strips, rusted, sequins, ribbons, swirls, and brush stroke looks add to the design options. Final finish (sheen) for surfaces range from matte to high gloss, refined with sequin, ribbon, and rough cut texture options.

Recommended Applications:

- Decorative metal vertical cladding
- Decorative metal signage
- Decorative metal trim elements
- Ceilings
- Retail Facilities
- Hotel/Office Lobbies
- Theaters
- Restaurants
- Casework Design
- Resurface existing substrate with Re-Cover

Bronze Age*
L6454

Hot Tin Roof*
L6455

Rough Cut
L6453

*These two designs, Bronze Age and Hot Tin Roof, are hand-colored, meaning that Wilsonart® has two artists that manually spray a special chemical mixture over the copper foil on these decorative metals. Each sheet is then completely unique from the other making these designs literal works of art.

Adhesives

Wilsonart® Adhesives are specifically formulated to offer unparalleled bonding performance for High Pressure Decorative Laminate and other surfacing products. The Wilsonart® Adhesive product line includes solvent-based and water-based contact adhesives, PVA-type white glues, wood glues, solvents, cleaners and custom colored matched caulk for Wilsonart® Laminate, Wilsonart® Solid Surface and Wilsonart® Quartz designs.

Winter Carnival 1874K

CONTACT

Wilsonart® Contact Adhesive is specially formulated for use with High Pressure Laminate. With outstanding bond strength and high heat resistance, our contact adhesives are the perfect choice for your countertop, fixture, or panel.

PVA

From fast-setting adhesives to high performing wood glues, Wilsonart's lineup of poly-vinyl acetate (PVA) adhesives and speciality products are sure to meet the needs of any laminating or woodworking operation.

Solvents/Cleaners

Whether you choose a solvent to clean your equipment or one of our cleaners to remove adhesive residue from the decorative surface, Wilsonart® Solvents and Cleaners will do the job right. Also new to the family of cleaners is Wilsonart's aerosol Citrus Adhesive Cleaner, dissolves adhesive resins and leaves a fresh orange vanilla scent behind.

Speciality

Wilsonart® Color-Matched Caulk is a high-quality sealant formulated to color match Wilsonart® Laminate, Solid Surface, Quartz and other hard surfaces.

Magnata 1880K

UL GREENGUARD Gold Certified Products

Wilsonart® firmly believes in a commitment to doing right by our planet. To this end, many Wilsonart® Adhesives have been certified by UL GREENGUARD and are monitored on a regular basis. Using these certified products significantly reduces indoor air pollution without adding cost or effort.

3 Basic Adhesive Categories		
Contact Adhesives	Polyvinyl Acetate Adhesives (PVA)	Solvents & Cleaners
<ul style="list-style-type: none"> • 2 Primary Grades <ul style="list-style-type: none"> - Solvent Based - Water Based 	<ul style="list-style-type: none"> • 2 Primary Grades <ul style="list-style-type: none"> - PVA's - Wood Glue 	<p>Solvents: Intended to clean internally, Primarily for equipment.</p> <ul style="list-style-type: none"> - Applications: Brushes, rollers, hoses, spray guns, spray pressure pots, etc.
<ul style="list-style-type: none"> • Ingredients <ul style="list-style-type: none"> - Solvents: Clear liquids used to dissolve rubber and resins. - Rubbers: Make up the solids content of the adhesive. The higher the solids content, the more material that can be bonded. 	<ul style="list-style-type: none"> • Ingredients <ul style="list-style-type: none"> - Water - Synthetic Polymers - Fillers 	<p>Cleaners: Intended to clean externally, Primarily for surfaces.</p> <ul style="list-style-type: none"> - Applications: To clean overspray and finished goods such as countertops and desktops.
<ul style="list-style-type: none"> • Application: Apply to both sides, allow adhesive to dry, apply significant pressure. 	<ul style="list-style-type: none"> • Application: Applied to only one material or one side and contacted while still wet. Mechanical fasteners are then attached until adhesive dries and hardens. 	

Wilsonart® Adhesives have held together many of America's foremost projects since 1970. Wilsonart's breadth of contact adhesives, cleaners, and solvents are superior in terms of selection and unmatched in terms of performance.

When you have the need for speed, Wilsonart® Adhesives offer a wide selection of canister and aerosol contact adhesive products. Whether using them for touch up or full scale fabrication, the performance and portability of these products provide a fast, dependable solution for the busy fabricator.

Wilsonart® Adhesives have a lineup of polyvinyl acetate (PVA) adhesives and speciality products sure to meet the needs of any laminating or woodworking operation. From fast setting adhesives to high performing wood glues, Wilsonart® Adhesives have the right tool for the job.

Versatile - Renewable - Easily Maintained

Paris Fog 9110CS

Available in over 70 colors and designs, Wilsonart® Solid Surface is ideal for any interior where you need a surface that looks good, performs well, and provides options that no other surfacing material can.

Key Features:

- Interior use only
- Vertical and horizontal application
- Can be cut and shaped
- 1/2" sheets - 30" by 144" in over 70 colors
- 1/4" sheets - 30" by 120" in 2 colors
- Renewable surface
- Uniform color throughout entire thickness
- Available in 8 - Translucent color designs

Recommended Applications:

- Countertops
- Vanities
- Window Sills
- Wainscoting
- Paneling
- Shower Surrounds

Resistant to stains and easy to maintain, Solid Surface also requires no surface sealants or costly day-to-day maintenance. And because it is renewable and repairable, slight scratches can be buffed away by the customer or professionally addressed by a Certified Wilsonart® Fabricator.

Discover the Possibilities

Sangda Falls Q4012

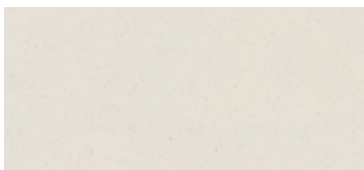

What influences the look of our interiors? We select things that speak to us. But why is it that we're drawn to one thing and not the other? Our interiors reflect the collection of our experiences and our memories. Our interiors speak to where we've been and where we're going. It's the embodiment of discovery.

Discovery is the big idea behind Wilsonart® Quartz. As we travel to different destinations we collect experiences; we discover new cultures, art, and food. These experiences color our thoughts and transform our personal surroundings. The experiences become memories which are priceless mementos.

Wilsonart® Quartz surfaces are more durable than most surfaces available today. These surfaces are very resistant to cracks, scratches, impact, and stains. But they are not scratch-proof, so take care when using sharp objects near the countertop. Like any surface, excessive pressure on the surface with a sharp object can damage it. Cutting boards are always recommended for preparing food and trivets for hot pots and pans.

Recommended Applications:

Residential and Commercial interior applications including:

- Kitchens
- Bathrooms
- Conference Tables
- Laundry Rooms
- Reception Areas
- Restaurants
- Food Service
- Hospitality
- Retail Stores

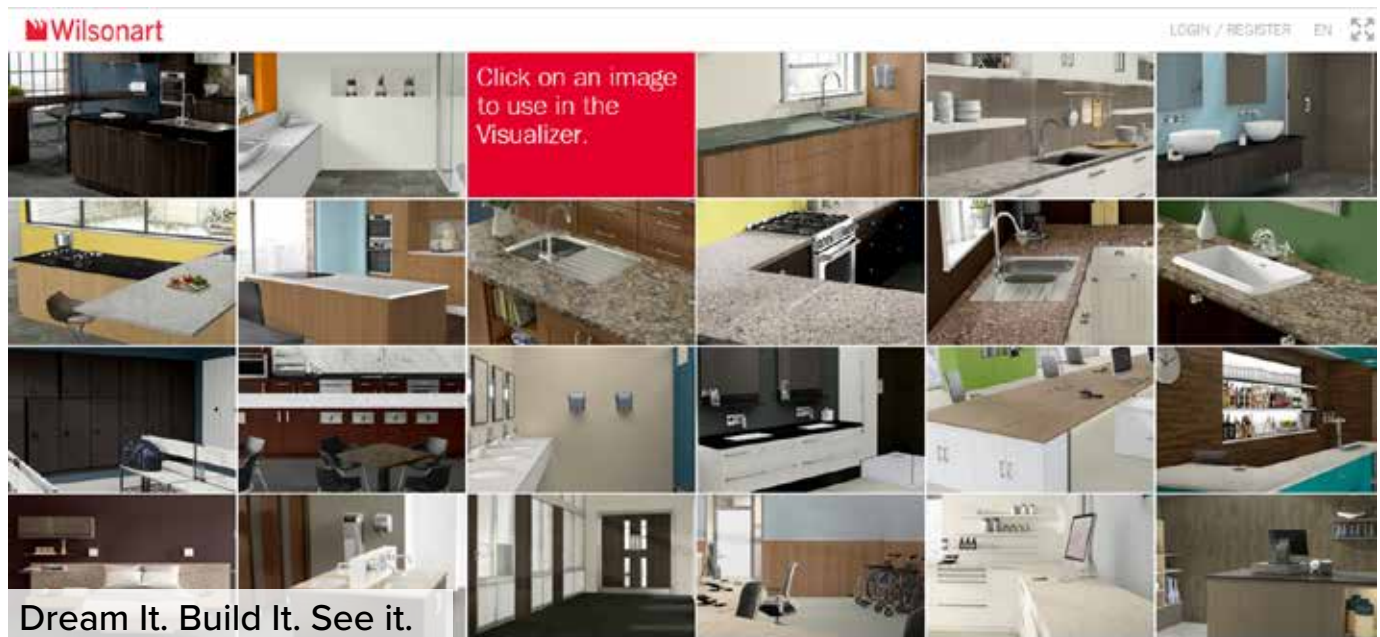

Upper Wolfjaw Q4038

Key Features:

- An engineered stone, composed of about 93% quartz crystals, coupled with high-performance polymers.
- Stronger, harder, and more scratch-resistant than most granites.
- Non-porous, non-absorbent, stain resistant.
- Does not support the growth of mold and bacteria.
- Does not need to be chemically sealed like granite.
- Color consistent designs throughout slabs which allows for beautiful installation.
- Maintenance free, can be cleaned with only soap and water.
- Gloss level greater than 45, finished at the factory.
- 10-year product-only warranty, non-transferrable.
- Available in 55" wide x 120" long slabs.
- A total of 52 colors/designs.
- 23 of these available in jumbo slabs (63" x 120" or 126", 65" x 130", 64.5" x 126")
- Available in both 2cm and 3cm thicknesses.

Grayton Beach Q4039

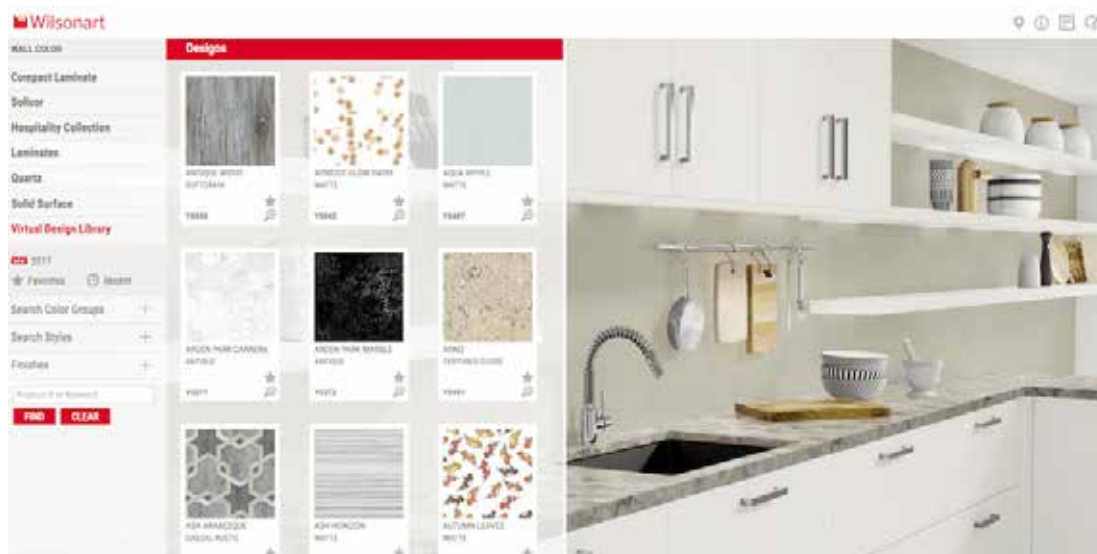

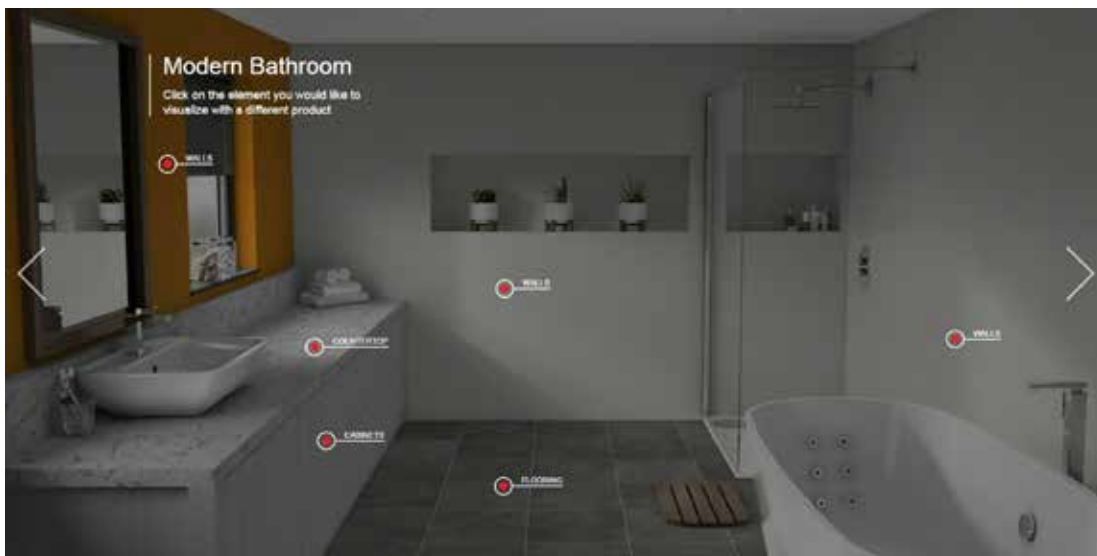

The Wilsonart® Visualizer lets you do just that. Whether it's Wilsonart® Quartz or Wilsonart® Laminate, or Wilsonart® Solid Surface, our Visualizer gives you the latest in design technology to see your inspirations in real time.

With hundreds and hundreds of exclusive Wilsonart® Laminate, Quartz, Solid Surface, and VDL combined designs to choose from, up to 5 edge options, 16 customizable cabinet finishes, hundreds of Wilsonart® Laminate cabinet finishes, 10 flooring options and just under 200 different paint colors, finding your perfect design should be easy. It's finding the imperfect designs that may be the hard part.

It's simple

1. Choose from some of the most popular kitchen styles today as well as 3 bath settings, and one laundry room setting.
2. Select your surface preference - Wilsonart® Quartz, Laminate, VDL, or Solid Surface.
3. Apply your surface edge (Laminate and Solid Surface only).
4. Customize your cabinet finish, floor and wall color.
5. Once it's complete, share it, whatever you do, it's yours.

Wall Accent: Whitewashed Brick - VDL, Countertop: Black Alicante - Premium Laminate, Cabinets: Ruskin Oak.

Classic cherry wood or natural pine? A ray of sunshine yellow or a neutral, cool grey? Large veining or small particulates on a gorgeous quartz countertop? Finding the right look for today's home renovation projects can be exciting and daunting with more than a multitude of choices. To help designers and consumers identify the colors, patterns and materials that make their dream kitchen or bathroom project a reality just became a finger pinch away with Wilsonart's expanded, interactive Visualizer.

Wilsonart® Studio Solutions

Solutions Made Easy

By combining the vast number of design choices within Wilsonart's Virtual Design Library with the customization capabilities of Wilsonart By You, design as never been more democratized. Wish that weathered oak was a little warmer? Let us know. You like a particular VDL design, but wish to incorporate a logo? Let's do it! It's easier than you think. In fact, they do it almost every day.

The concept is simple, the implementation is not. That's why only Wilsonart® offers hundreds of boutique designs available at a whim, along with the ability to alter color or even the structure of each. How can they do it? Because they do everything in-house.

Of course the VDL designs are great straight from the printer as intended, but in some cases, you may be looking for that ever-elusive color that just doesn't seem available anywhere you source design. The Wilsonart® Design Studio solves this dilemma by leveraging the customization of WXY with the design choices of VDL.

Wilsonart's Sustainability Journey

For more than 60 years, being a responsible member of the global community has been woven into all aspects of Wilsonart's company culture. **Their Commitment:** providing high quality products, reliable services, secure jobs and strong community support.

WILSONART'S ENVIRONMENT

- ✓ Continuous product/process improvement
- ✓ Minimal impact on environment
- ✓ Thousands of SKUs of FSC® Mix Credit Certified HPL
- ✓ First North American laminate manufacturer to achieve Forest Stewardship Council Chain of Custody Certification

PROCESSES

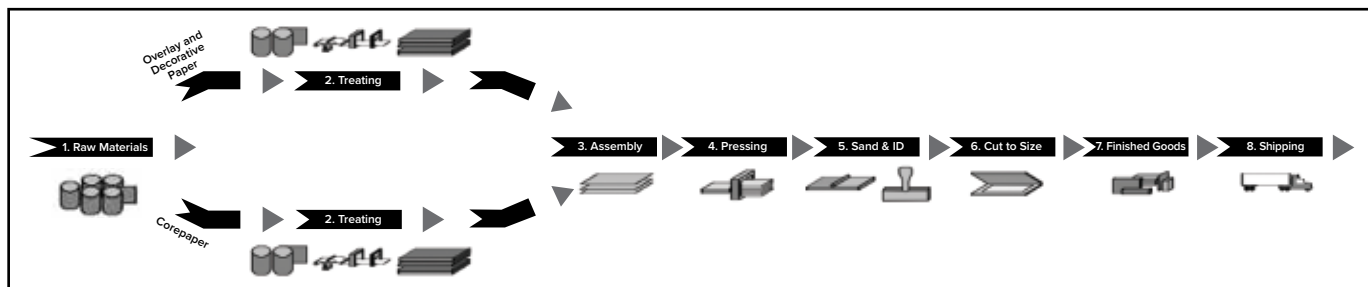

They strive to ensure their manufacturing and distribution processes leave minimal impact on the environment. Their sustainability programs include energy management, waste management, eco-friendly product transportation, and raw materials partnerships with suppliers who are equally committed to sustainable business practices.

PRODUCTS

Wilsonart® continually innovates the laminate surface, seeking to improve sustainability without sacrificing performance. 30% of fiber used to make Wilsonart® Laminate comes from recycled sources. The recycled content in Wilsonart® Laminate is certified by SCS Global Services. The laminate is also UL GREENGUARD Gold Certified for low chemical emissions, which can assist you in earning LEED certification. All standard Wilsonart® Laminates are available on request as FSC Mix Credit, SCS-COC-002415. Wilsonart is proud to be the first adhesive manufacturer to have its low-emitting PVA and woodworking adhesives recognized by UL's GREENGUARD Certification Program for indoor air quality. wilsonart.com/laminate-certificates.

Raw Materials

The laminate production process at Wilsonart International begins in the receiving area. Decorative paper, kraft paper, overlay, and other raw materials arrive and are inventoried and distributed to the appropriate holding area.

Decorative Paper

Decorative paper provides the pattern, woodgrain or solid color for a sheet of laminate. Overlay paper gives laminate its surface strength and scratch-resistance.

Overlay paper is taken to the melamine treater area where it is saturated with melamine resin, cured and rerolled.

Both decorative paper and treated overlay paper may be stored in rolls or cut to sheet size and stored until needed.

When the production schedule arrives in the assembly area, sheets of decorative paper and overlay are pulled from the rack system and assembled in sets based on the day's production run.

Core Paper

Just as decorative papers are readied for press, the kraft paper, which makes up the core of laminate, undergoes a similar process. Kraft paper arrives in the facility by rail and is placed in the kraft paper storage area. From this staging area, the kraft paper is taken to the phenolic treater where it is saturated with phenolic resin, cured and rolled or cut to size.

Treated kraft paper is taken to the corestock area where it is assembled based on the sheet makeup required by the production schedule. Each type of laminate (general purpose, postforming, vertical grade) requires a slightly different core lay up.

Assembly/Pressing

The collated material from the corestock area is taken to the pressing department to be collated with the decorative papers from the assembly area. The two processes come together as the decorative paper and core paper are assembled at the press, and cooked for about an hour under high heat and pressure.

The decorative and kraft papers are sandwiched between two stainless steel textured plates which impart the tactile finish (gloss, matte, textured) on the completed laminate sheet.

Sanding

Once the press cycle is complete, the laminate is taken to the sander. The edges of each sheet are trimmed, and the back is sanded to provide better adhesion in fabrication. At this stage the pattern identification number is printed on the back of each sheet.

Cut To Size

Some special order sheets are cut to size for the customer. This takes place in the cut to size area after the laminate leaves the sander.

Finished Goods

Once the laminate clears the sander and cut to size areas, it is sent to the finished goods staging area where it is stored temporarily prior to being shipped to our market service centers, distributors or direct accounts.

Shipping

Laminate sheets are pulled from finished goods inventory, packed on skids and loaded aboard Wilsonart International trucks for shipment to regional market centers

Company Branches:

- Fargo, ND - Fabricators Unlimited - Established in 1985
Fabricators Supply - Established in 1996
- Bismarck, ND - Established in 1999
- Billings, MT - Established in 2001
- Brainerd, MN - Established in 2014
- Blaine, MN - Established in 2014

Established in 1996, Fabricators Supply, a family owned and operated company based out of Fargo, North Dakota, proudly became a distributor of Wilsonart® products. For over 20 years now, Fabricators Supply and Wilsonart® have worked together to make Wilsonart® laminate one of the most widely used and trusted laminate brands in the Upper Midwest.

Fabricators Supply has been a distributor to some of the highest quality hardware stores, cabinet and millwork shops, fabricators, and interior design companies in the region. These stores, shops, and designers have used Wilsonart® products in everything from educational buildings, hotels, and restaurants to residential homes and apartments.

In an ever changing and competitive market, Wilsonart® and Fabricators Supply are making it easier for the customer to buy a wide range of high quality countertop products, all under the same trusted name of Wilsonart®. These products - from laminate to solid surface to quartz - are proudly displayed in our up to date showrooms located in our five branches.
