15 $\frac{1}{4}$ " Height
Finish: Chrome
Stream - Spray - Pause

ELKAY LK6000LS

Arc Spout/Pull Down Spray
15 $\frac{1}{4}$ " Height
Finish: Lustrous Steel
Stream - Spray - Pause

A TIP ON TALL FAUCETS

If installing a tall faucet in a laminate top be aware that because of their height there is a higher chance of water splashing back and potentially leaking into the core of the top at the backside. If a tall faucet is desired for a laminate top, a postform style or covered backsplash in laminate is best. Extra care may be needed in drying the tops after use due to splashing.

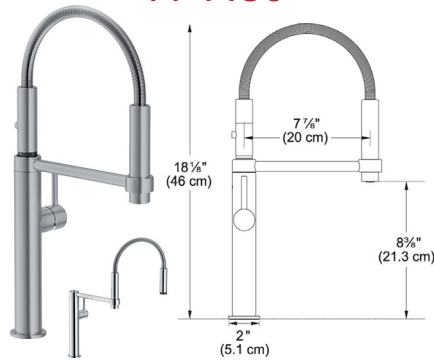

FRANKE & KOHLER FAUCETS

**FRANKE
FF4400**

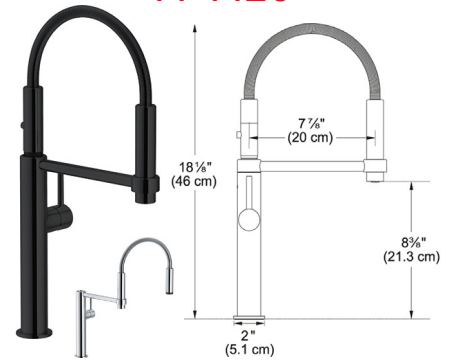

360° SemiPro
18 1/8" Height
Finish: Polished Chrome
Stream or Spray

**FRANKE
FF4480**

Drain Included

**KOHLER
14406-4-CP**

Widespread Bathroom Sink Faucet
w/ Low Lever Handles & Low Gooseneck Spout
8 1/2" Height
Finish: Polished Chrome | Drain Included

DESIGNING YOUR KITCHEN AROUND YOUR SINK

THE IMPORTANCE OF MAKING THIS DECISION #1

1. Our sink vendors tell us over 75% of our time in the kitchen is spent at the sink. Makes sense to be a top priority choice.
2. Customer gets the sink they really want.
3. Sink Cabinet is designed to fit the sink. It could require a larger base, or maybe even a bump out. Or if apron front, special cabinet needs/support.
4. The customer could be looking for special accessories...soap dispenser, water filtration, hot/cold water dispenser, matching strainer baskets/disposal flange.
5. Confirming the sink works with the existing plumbing...too shallow, too deep.
6. Depth of sink...this is a good conversation to have regarding the customers' height and if they have to do a lot of bending when using sink.
7. Many times sink choices are based on the number faucet holes...not all have a variety of choices.
8. If decision waits until the end, more than likely it hasn't been budgeted in and the customer will "make do."

FOLLOWING IS BASED ON BUYING THROUGH FABRICATORS SUPPLY...

9. Our depth of inventory is great, and the name brand vendors we work with are solid. They stand behind their product. You provide quality design, we provide quality product.
10. Our engineering department has all the specs and info on our sinks. Customers who order their "sinks on line" create downtime as we try to research and find the correct cutouts or install applications. If there are sink issues during install with on-line purchase... project stops.
11. If something were to go wrong at install with our sink, we have a very good chance of having stock and getting another one off to the customer so the install can go on.
12. If our sister company, Fabricators Unlimited, is handling the project, the sink rides along with the countertop. We coordinate getting the two together.
13. There are times the sink was to be provided by the plumber, or on-site by homeowner, and neither happened. Delay in install.
