

FastCap[®]

The FastCap® Difference

FastCap was founded in 1997 by Paul Akers, a veteran in the cabinet-making/woodworking industry for over 20-years. One day, while Paul was building some cabinets, he got an idea for a self-adhesive screw cap cover and the Fastcap was born.

Today FastCap is a product development company that specializes in making innovative time-saving products for the woodworking professional. FastCap has over 2,800 distributors in 40 countries worldwide and launches 10 to 20 new products per year.

At its core, FastCap is a Lean company. We are determined to continuously improve everything, everyday. Our products reflect the idea that things can be improved and the best ideas come from the shop floor. Did you know that most of our ideas come from people just like you? If you have an idea or a better way of doing something, email Paul directly at paul@fastcap.com! To learn more visit us at www.fastcap.com and click on the idea tab.

At the end of the day, FastCap's products are about efficiency, increasing productivity and making work fun. We are determined to satisfy you 100%. If we fall short we want to hear about it; that is how we improve and there is no end to improvement.

Thanks

Paul Akers,
President

FastCap® Peel & Stick Cover Caps... *and a whole lot more!*

Custom sizes & colors available

Fastcaps are the finishing touch to a professional job! They are self-adhesive screw cover caps, made with ultra-bond high performance PSA adhesive which increases in strength as it cures. Thousands of shapes, sizes and material types available.

Features...

- Fast and easy to install
- PVC, unfinished and pre-finished wood
- 100's of shapes and sizes

Great for...

- Covering screw holes
- Finishing RTA fittings
- Trimming out plumbing cutouts

Packaging for Fastcaps

Single Sheet	53 9/16" caps (PVC) 52 9/16" caps (Wood)	
Mini Box 5 sheets	265 9/16" caps (PVC) 260 9/16" caps (Wood)	
Standard Box 20 sheets	1,060 9/16" caps (PVC) 1,040 9/16" caps (Wood)	
Bulk Box 500 sheets	26,500 9/16" caps (PVC) 26,000 9/16" caps (Wood)	

Peel & Stick Edgebanding

Fastedge is a peel & stick edgebanding made with ultra-bond high performance PSA adhesive. It is fast, easy, super strong and increases in strength over time. Simply peel off the liner, stick, roll and trim and you are done!

Features...

- Fast and easy to install
- PVC, unfinished and pre-finished wood
- Increases in strength as it cures

Great for...

- Cabinetmakers
- Field repair
- Refacing

Technical Information

SpeedRollerPRO SpeedRollerQUAD

Speedroller PRO

Speedroller QUAD

The SpeedRollerPRO and SpeedRoller Quad are ergonomically designed with laminate rollers that can be used for any PSA application - especially Fastedge & SpeedTape. The SpeedRollerPRO includes 2 sets of interchangeable wheels and the SpeedRoller Quad has all the wheels attached and it is ready to roll!

Features...

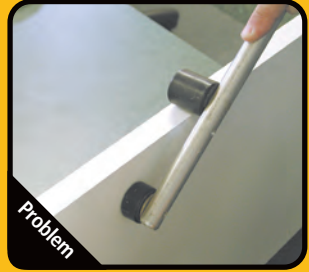

- Ergonomic shape
- Non-marring rubber wheels
- Maximum PSI steel wheels

Great for...

- Roll on Fastedge
- Roll on SpeedTape
- Labels and laminate

Clunky and awkward

Ergonomic shape

Even pressure

3 Way Clamp & 3 Way Clamp Lock

The 3 Way Clamp is a combination of the usual spring clamp with an additional spring that applies a third direction of pressure. The clamp has approximately 30 lbs of clamping pressure. The 3 Way Clamp Lock now has the ease of a spring clamp and the hold power of a screw clamp. Easily screw by hand or use a drill driver to lock it in tight.

Features...

- Non-marring rubber tips
- Spring clamp and edge clamp in one
- Approx. 30 lbs of edge pressure

Great For...

- All types of edge banding
- General clamping purposes
- Straight lines with no hassle

Inventors, Frank Marusiak (3 Way Clamp) & Jonathan Schwartz (3 Way Clamp Lock)

Patent #5765820

PRO

Tungsten Carbide
Blades last
10x longer

Tri
Trimmer

3 Carbon Steel
Blades

The pneumatic Quad Trimmer with Carbon Steel or Tungsten Carbide Blades makes trimming edgebanding quick and easy! With a comfortable and ergonomic design, it trims both sides of the edgebanding in just one pass. The Tri Trimmer allows you to get tight into the corners when trimming veneers and edgebanding.

Features...

- No springs, all pneumatic
- Cuts forwards and backwards
- Cuts both sides at once
- Cuts 1/2" to 1-1/4"

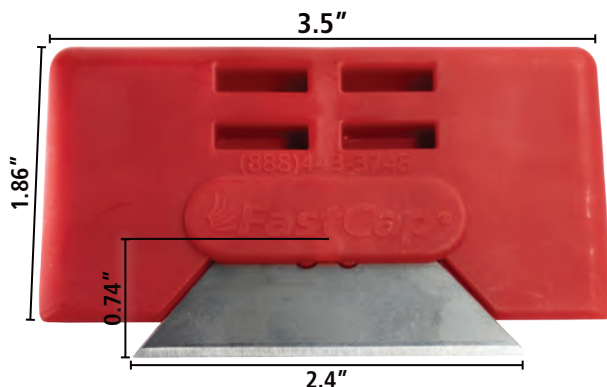

Great for...

- Edgebanding
- Wood veneer (watch the video)
- Materials up to .025"
- Refacing cabinets

Quick-N-Easy Edge Trimmer

Our simplest edgeband trimmer yet! Combining an ergonomic housing and a standard utility blade, the Quick-N-Easy Edge Trimmer is perfect for trimming around a radius or other odd shapes. The magnet in the back securely holds the blade just where you need it and makes swapping out blades fast.

Features...

- Ergonomic housing
- Magnet for keeping blade in place
- Uses standard utility blades

Great For...

- Easily trimming any size radius
- Trimming Fastedge & edge banding
- Quick trim jobs

Inventor, Derrek Holland

FlushMount Drill Bit System

There are 3 sizes of carbide cutters with an 1/8" pilot bit. All 3 bit cutters are interchangeable with the FlushMount housing.

Available Sizes

The FlushMount Drill Bit System incorporates a unique ball bearing stop collar that controls the recess depth of the drill and allows the stop collar to stop spinning when it comes in contact with the surface.

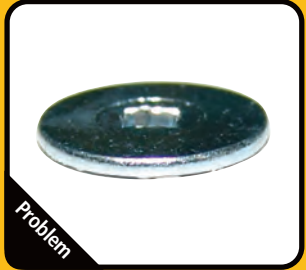

Features...

- Includes a 9/16" carbide cutter
- Micro depth adjustment
- Adjustable 1/8" pilot bit

Great for...

- Countersinking Fastcaps
- Countersinking PowerHead Screws
- Recessing magnets

2P-10 Adhesive

- Excellent for filling micro cracks
- Zero glue line

- For use on porous surfaces such as particle board

Most Popular

- Will not run, great for vertical surfaces
- All purpose application

- For use on smooth surfaces such as laminate
- Excellent for filling medium cracks

- 2P-10 Solo Kit**
- 2.25oz Thick
 - 12oz Activator

WARNING! This product could expose you to chemicals including N,N-dimethyl-p-toluidine which are known to the state of California to cause cancer or birth defects or other reproductive harm. For more information visit www.p65warnings.ca.gov

- 2P-10 Kit**
- 2.25oz Thin, Med, Thick & Jël
 - 2oz Activator and De-bonder
 - 5 Microtips, 1 Pump Spray & 2 Brushes

2P-10 is a two-part ten-second adhesive. Just apply the adhesive, then spray the activator and stick it together for a strong, permanent bond. Its greatest benefits are its speed and strength.

Features...

- Easy to sand within 60 sec.
- Dries crystal clear
- 4000 PSI tensile & sheer

Rubber Toughened...

- Thick & Jël viscosity
- Rubber provides elasticity to joints
- 10% stronger than standard 2P-10

Low Profile Disposal Jack

Need a hand? The Low Profile Disposal Jack gives you just that! It makes installing your garbage disposal so easy that you'll wonder how you ever managed without it. The Low Profile Disposal Jack rests lower than our standard Disposal Jack, giving you much needed clearance in those tighter than usual spaces. It also gives you hands free support under the garbage disposal while you install it.

Features...

- Large 6" x 6" feet
- Precision pump mechanism
- Cord cutout so disposal sits flat
- 4" to 13" of lift
- Lifts up to 15lbs, holds 200lbs

Great for...

- Installing garbage disposals
- Light lifting, holding, and spreading
- Tight or shallow spaces

Shop Saw Hood

The Shop Saw Hood is the new rigid hood that fits on any miter box saw in a fixed location. It's rugged and effective, the perfect application for capturing all the dust in a production environment or home shop. The panels come packed flat and take just minutes to assemble and install. Its easily customizable width makes it fit perfectly on any and every saw. We provide the side panels, all you need to provide is (3) 1"x3" boards cut to your desired Saw Hood width. Cut the backing to 48" long and the same width as the 1"x3" pieces, with a thickness up to 1/4" of either plexiglass, laminate or signboard to create the curved hood.

Features...

- Customize to any size
- Precision puzzle joint
- Easy install

Great for...

- Mess-free shop
- Miter saws
- Tile saws

Saw Hoodie

The Saw Hoodie is our latest generation of saw hoods to effectively address the difficult problem of dust collection on miter box saws. It's super small and compact and works best on smaller 8-inch saws but can work on larger 10 and 12-inch saws as well. It's designed specifically for quick and minimal setup and takedown on job sites. Its super flexible metal spring ring design allows this hoodie to spring open and mount into the accessory holes on your saw. There is even a vacuum hose hole in the back that allows you to attach a shop vacuum for added dust collection.

Features...

- Quick install
- Easy to store
- Vacuum hose hole

Great for...

- Mess-free shop
- Miter saws
- Tile saws

Mag Micro Square & Mag Square 45°

Engraved with Imperial and metric scales

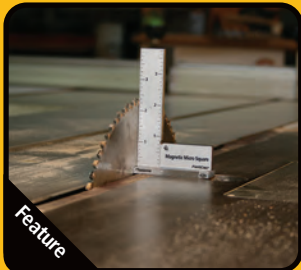

The Magnetic Micro Squares make squaring up your saws and equipment effortless! The new Mag Square 45 Degree sets your blade to a precise 45° with zero guess work. The magnetic base sticks firmly to the cast iron or metal table and allows hands-free adjustment of spindles, blades and fences. The built-in scale allows you to easily set the height or do precision layout for finish carpentry.

Features...

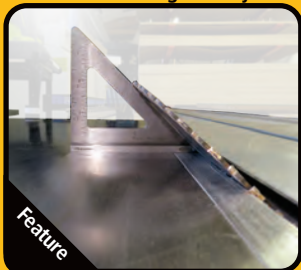

- Set saw height and angle
- Imperial scale and metric scale
- 2 neodymium magnets embedded in the base

Attaches to saws

Fits onto unusual shapes

Blum Vacuum Connector

The Blum Vacuum Connector is a vacuum adapter for wood chip and dust collection. The Vacuum Connector was designed by a cabinetmaker specifically for the Blum Minipress. It slides onto the depth stops and can attach to a standard shop vac hose with an outer diameter of 2.25". It makes routing hinge cups easy with no mess to clean up. Every unit is made to order on our 3-D printer.

**** DO NOT over tighten thumb screws. ****

Features...

- Collects chips & dust
- Fits shop vac hose with an outer diameter of 2.25"

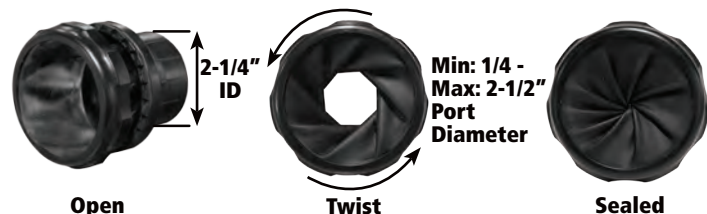

Great for...

- Blum Minipress

Inventor, Justin Lahaic with Hillcrest Cabinets

Description	Part Number	Price

UNI-VAC Universal Vacuum Adapter

The UNI-VAC is the ultimate shop vacuum accessory. The super flexible rubber grips around most sizes and shapes of vacuum ports. Adapts to most table saws, routers, miter saws, sanders, and the list goes on! The innovative locking teeth allow you to secure the UNI-VAC in place. The fixed end attaches to most vacuum hoses with an inner diameter (ID) of 2-1/4". Another great innovation, designed by a cabinet maker!

Features...

- Interlocking rings
- Flexible to allow easy tool movement

Great for...

- Unusual size dust ports
- Portable & stationary tools

Inventor, Stephen Lothrop

Super Reel

Finally, you never have to wrestle with your vacuum hose or shop vacuum again! The Super Reel is adaptable to any shop and can manage 10' to 50' of 2 1/4" (outer diameter) vacuum hose. The smooth bearing design unwinds and rewinds in seconds. You provide one 2x4 and the 2 1/4" hose. Everything else is included for a quick and easy (20 minute or less) assembly and installation.

Features...

- Work with any 2 1/4" (outer diameter) hose
- Easily customize and adjust reel size
- Built-in handle

Great for...

- Car wash stations
- Work van
- Shops

For 50' length of hose: Cut one 2x4 in (5) 13" and (2) 15" pieces

TAILLOCK

We Got Your Back

The Tail Lock is a wireless locking system that allows you to click it and lock it. Recessed bolts secure the lock to the bottom of your truck quickly, easily, and are fully enclosed to prevent access when locked. Welded aluminum housing protects the wireless locking cylinder to prevent tampering. Additional safety feature allows you to open the lock even without power in case of emergency using the included custom tooling. Don't be a statistic - or even risk becoming one!

Features...

- Helpful spacer & installation jig
- Installation template
- 2 remote control key FOBs

Great for...

- Securing roll up doors
- Securing truck doors
- Securing trailer doors

laserJamb[®]

LJ4^{PRO}[™]

The Laserjamb LJ4 Pro makes the process of leveling anything from a cabinet to a picture frame fast, easy and accurate. This allows you to use a laser and position it from the floor to the ceiling with ease. No longer do you have to create a reference line and measure off of it. Simply position the laser exactly where the work is. This eliminates pencil line, chalk line and a level and allows both of your hands to be free so you can work more efficiently and accurately.

Features...

- Easy to set up and take down
- Tripod allows for hands free
- Precision scale for accurate positioning
- Reaches heights up to 14'

Great for...

- Trim
- Cabinets and tile
- Electrical and plumbing
- Chair and crown molding

Drill, sand and press

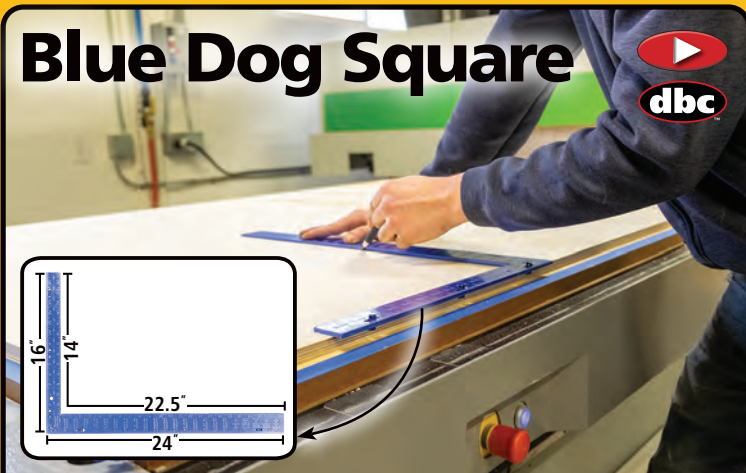

Rotates like a turntable

Adjusts to accommodate material

Blue Dog Square

The Blue Dog Square allows you to scribe fast, accurate lines with ease and eliminates awkward alignment. It has 5 rotatable dogs built in the arms, allowing the edge of your material to be found instantly no matter how thick or thin it is. It can be used immediately on flat surfaces as the dogs return into the square when laying on any surface. The Blue Dog Square can even hang on vertical panels while resting on the dogs, providing an accurate reference line with no fumbling or tilting the square to rest on the edge. Just another great product developed by a carpenter on the shop floor.

Features...

- 3/16" thick aluminum
- 5 rotatable dogs

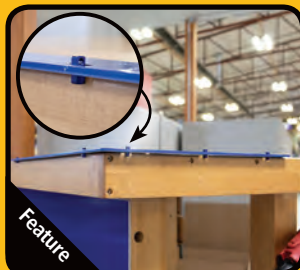

Great for...

- Straight reference line
- Drawing vertical lines

Heavy Duty Flush Cut

Flush edgeworking with End Nippers

Flush frets with Fret Nippers

Great on tough materials

Flush Cut Series

The Micro Flush Cut Trimmers design allows you to get into tight spots when removing brad nails or small slivers.
(OK to pull nails, not recommended for cutting nails).

The Macro Flush Cut Trimmer works great with wood and PVC with standard thicknesses of .018"-.025"
(Not recommended for trimming/cutting, nails or screws).

The Heavy Duty (HD) Flush Cut Trimmers cut nails flush. Includes two PowerMags to help catch metal debris.
(Not recommended for hardened screws).

The End Nippers have a flush 1" wide head that can be used for cutting fret wires, up to 3mm edgeworking and a variety of other applications.
(Not recommended for cutting nails. Great for metals like brass & copper).

The Power Shears are small and compact, yet razor sharp and cut through the toughest material like veneer, burlap, or even aluminium.

The Fret Nippers are a special all-new nipper, designed by a luthier. With a hardened blade and compounding mechanical leverage you'll get a beautiful flush trim on your frets every time.
(Perfect for use with nickel, copper & brass frets).

The Fret Puller is a special all-new nipper, designed by a luthier. Narrow tooth design allows you to pull guitar frets up without pulling wood pieces.

Drill Bits
From 1/16" to 1/2"
in 1/64" increments

Get your bits organized with the KISS Drill System. With 82 color-coded bits, it eliminates guesswork when returning drill bits and helps keep them in the right place. It also helps identify broken or missing drill bits in your set.

Features...

- Easily organize all your drills
- See when tools are broken or missing
- 82 Color coded bits
- 1/16" to 1/2" in 64th increments
- Split point HSS jobber drill bits
- Heavy duty ABS index

Quick Mandrel

The Quick Mandrel has a new quick-release system that allows you to easily "lock and quickly release" your hole saw. Line up the pins and push them into place, and with a simple "twist," lock your hole saw. No screws, no threads, as fast as changing a bit in your screw gun!

Features...

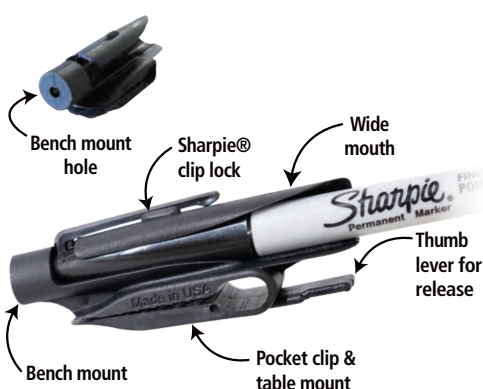

- Quick on, quick off
- Easy to tighten & release
- Fits most standards hole saws
- Lock sets
- Any large diameter hole
- "Roughing in" plumbing & electrical

Great for...

Inventor, Tim Pammatmat

Sharpie® Holster

The Sharpie® Holster is a nifty little tool designed to make using a Sharpie® on the job easier and more efficient. Fitted with a belt/pocket clip and two bench and table mounting options, your Sharpie® can now easily be capped and uncapped with one hand, saving you time. The cap simply clips into the holster and then to your pocket or table, keeping your Sharpie® right where you need it.

Invented by contractor Mike Settersten

Slide Pro

Adjustment shelf

Tensioning knob

The Slide Pro is a fast hands-free installation system for any drawer slide. Install a whole set of slides at once, instead of one at a time! Use the adjustment shelves to align with the cabinet railings, then tighten the tension knobs to hold in place, and install the drawer slides to the perfect height every time. It's durability and accurate measurements make it great in the shop and out on the job for any cabinet drawer installations.

Features...

- Measuring tower for quick install
- Adjustable shelf system
- Tension knobs

Inventor, Matthew C Loughridge

Great for...

- Framed and modular cabinets
- Retro fitting old cabinets
- Undermount drawer slides

Drawer Front Clamps

Left Clamp

Right Clamp

The Drawer Front Clamp will give you an accurate drawer front install every time. These well engineered clamps make it quick and easy to align and install with no struggle. The dual clamping allows any user to easily adjust a drawer front in seconds. Simply place the Drawer Front Clamps on the drawers, clamp, and adjust for the perfect alignment.

Features...

- Aluminum frame
- 2 mounting holes for toggle clamps
- Adjustable depth for face frame thickness

Inventor, Frans Jooste

Great for...

- Cabinet makers
- Drawer front alignment
- Kitchens, offices, bathrooms, etc.

Track Rack

The Track Rack is a great way to store track guide systems. The unique design allows you to mount most track systems on the wall vertically or horizontally. They can be mounted on a garage door, ceiling or work vehicle. The two mounting patterns give the flexibility to mount them on drywall, bare studs, panels on your garage door, or on trailer walls. The cam lock provides a positive secure lock that holds your fences safely. Designed by a fellow woodworker you will appreciate its thoughtful and elegant design.

INCLUDED HARDWARE:

Black PVC
FastCaps

(4) 1" Metal Square
PowerHead Screws

(4) 2 1/2" Wood Square
PowerHead Screws

Features...

- 2 end stops
- Cam locking system

Inventor, Ryan Wichman

Great for...

- Easily storing fence systems for: Makita, DeWalt, Festool & Triton

Level Rack, Level Rack Stacker & Level Rack Assembled

Want to securely and safely store your Stabila levels? The Level Rack's unique design allows you to mount most Stabila levels vertically or horizontally on drywall, bare studs, garage door panels, trailer walls, or in your work truck. The cam-lock has a positive lock that holds your level tight, secure, and rattle-free. The Level Rack Stacker & Stacker Assembled helps minimize wall space by stacking 2 or 3 Stabila levels with one Level Rack. It's simple and easy to unassemble a Level Rack and attach 1-2 Stackers for more Stabila storage.

Barbs that better secure joints

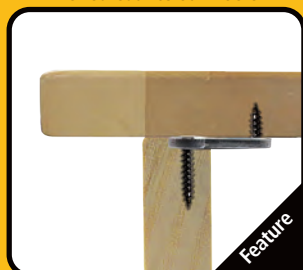

Glue runners for stronger hold

Screw is not flush

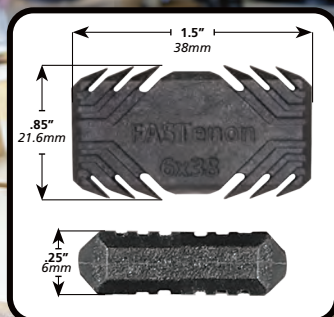

Finished countersunk screw

Izzy Skirt Washer side profile

FASTenon

The FASTenon is another new innovative product, from FastCap, that allows you to pull your joints together without clamps. The barbs bite into your material; holding your work piece firmly together. Add a little glue inside each joint and it's even stronger. Also great for aligning components when assembling. Developed by a cabinet maker for cabinet makers. The FASTenon will change the way you build.

Features...

- Barbs prevent joint from loosening
- Glue runners for a tighter joint
- Made out of our durable Nylamax

Inventor, Steve Hawbaker

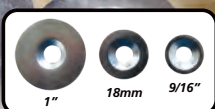

Great For...

- Use in place of wood dominos
- Frames with hidden fasteners
- Panel joints

SpeedBrace T-Brace

The SpeedBrace T-Brace is a great new addition to the SpeedBrace family of shelf support braces. This T-Brace is the perfect way to create the illusion of a free-floating shelf that is strong enough to support over 300 pounds per pair. Ideal for new construction but can be used in a remodeling application when an access hole is cut in the drywall for attachment.

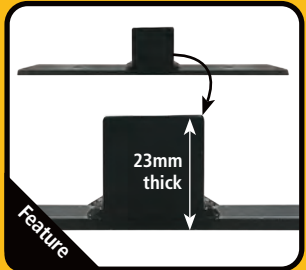

Features...

- 1/4" to 3/8" steel
- Mounting holes on both sides

Great for...

- Floating shelf
- Floating mantels

Euro Door Stops & Accessories

For Inset or Flush Cabinet Doors

Size: Standard

Designed for use with European style cabinets.

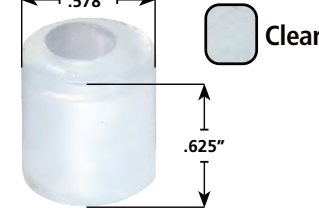

Available in these colors:

Size: Tall

Designed for use with face frame inset cabinets.

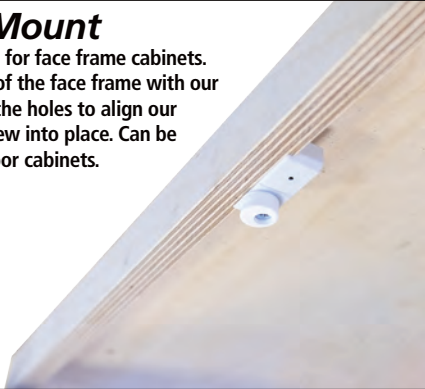

Available in these colors:

Don't settle for doors that won't shut at the same level. The Euro Door Stop makes your cabinets with inset doors look their best. Simply screw the Euro Door Stop inside your cabinet door and rotate to adjust until the faces are flush.

Euro Door Stop Mount

The Euro Door Mount is designed for face frame cabinets. Position the mount to the inside of the face frame with our Kolbe Korner screws. Simply use the holes to align our Standard Euro Door Stop and screw into place. Can be used for single door or double door cabinets.

Euro Door Stop Jig

The Euro Door Jig is a compact tool used for accurate and repeatable placement of our Euro Door stops on cabinets.

****Euro Door Stops sold separately****

ProCarpenter™ Tape Measures

7 Innovative Features

The ProCarpenter Tape Measures are developed with 7 great innovative features: lever action belt clip, pencil sharpener, dual locking system, erasable notepad, heavy-duty rivet construction, high contrast 1" blade and rugged compact design.

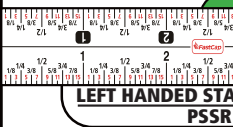

**OLD STANDBY
STANDARD**
PS - 16', & 25'

The Old Standby features standard measurements in large and is easy to read numbers.

**STANDARD
STORY POLE**
PSSP - 16' & 25'

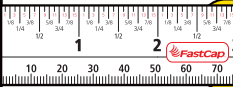

The Story Pole features a blank edge on the blade for writing and standard measurements on the other edge.

**STANDARD
REVERSE**
PSSR - 16' & 25'
PSSR - 6' MINI
LEFT HANDED STANDARD REVERSE
PSSR - 16'

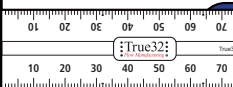

The Standard/Standard Reverse features standard measurements that are readable from the right or left hand.

**Also available in left handed style*

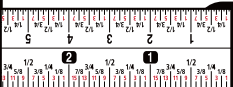

**METRIC
STANDARD**
PMS - 12', 16' & 25'

The PMS features metric and standard measurements identifying increments down to 1/16" and millimeter. **The 12' blade is 5/8" wide*

**TRUE32
METRIC
REVERSE**
PMMR-TRUE32 - 16'

The Metric/Metric Reverse features metric measurements that are readable from the right or left hand.

**STANDARD
EASY HALF**
PS - 16'
EASY HALF

The Standard Easy Half finds the center of your board. Measure the full length of your board with the standard scale, then find the same number reading on the "half" scale.

Kaizen Foam Knife Sled

Perfectly perpendicular cut

Viewing notch for easy alignment

The Kaizen Foam Knife Sled holds FastCap's TriBlade at the perfect angle to get a perpendicular cut through FastCap's Kaizen Foam. The wide edges easily slide against any straight-edge. The 1½" off-set makes it easy to measure, and the notches located at the front and back of the sled help get straight cuts every time. Another great product developed by a cabinetmaker.

Features...

- 1½" off-set
- Collapsible for easy storage

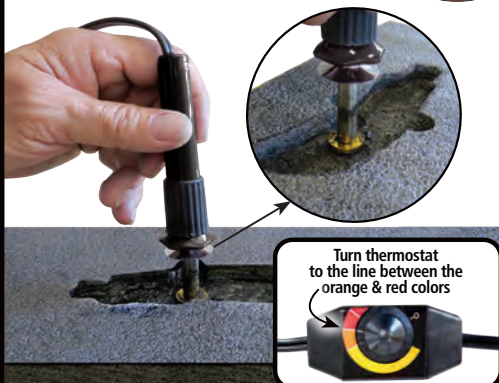

Inventor, Jim Lee

Great for...

- Cutting Kaizen Foam
- Cutting a clean line

Description	Part Number	Price

Kaizen Hot Knife

Turn thermostat to the line between the orange & red colors

The Kaizen Foam Hot Knife allows you to easily smooth the bottom of your cut out. You no longer have to deal with any uneven bottoms. Simply turn the dial on the thermostat in between the orange and red colors and gently tap the hot knife down and all your cut outs will be smooth. Need some finger holes? Turn the heat up on the thermostat and press down to make the perfect finger hole every time!

Features...

- Adjustable thermostat
- Easy to clean

Great for...

- Flatten Kaizen Foam
- Creating finger holes

Kaizen Foam Frame & Corners

2 spikes for easy install in foam

The Kaizen Foam Frame comes with a SINGLE 49" EXTRUDED PANEL that allows you to customize your frame. It has a high-performance peel-and-stick adhesive on the back, making it fast and easy to mount on any wall. The back lip allows you to screw the panels into the wall for added support. The Kaizen Foam Corners are designed to work with our 57mm Kaizen Foam and Kaizen Frames. Simply cut the Kaizen Frames a little short, line up the Kaizen Corners and press together for a clean, professional look.

****It takes 3 Kaizen Frame pieces to frame a 2x4 sheet of 57mm Kaizen Foam. DOES NOT INCLUDE FOAM.****

Features...

- Customize your frame to any size
- Foam adhesive liner
- Screw into wall for added support

Great for...

- Workplace clutter
- Inventory organization
- Hardware organization

Kanban Andon

Kanban:
A scheduling system used for lean manufacturing centering around physical signal cards (Kanbans)

Andon: In Lean manufacturing is a system designed to alert operators and managers of changes in real time so that actions can be taken immediately.

The Kanban Andon system allows team members to know when a Kanban Card is placed in its slot. The specially designed housing has a built-in sensor that turns the light on when a Kanban card is placed into its slot. It can be run off a standard 110V wall socket or a rechargeable lithium-ion battery. (Battery sold separately)

Features...

- Bright LED with 60" wire
- Wall plug or battery operated
- Kanban delivery clamshell with VHB
- Switchable between NO or NC

Great for...

- 20,000 bulb life & 16 hour battery life
- Large manufacturing facilities
- Lean warehouse
- Efficiency

Easily refill gas & start on stand

Universal Backpack Stand

NEW

Blower & Wand Stand

The Universal Backpack Stand is a great-looking design from FastCap to easily store and organize your backpack leaf blowers and weed sprayers! It assembles and mounts in just a few minutes. It allows for filling gas and firing up a blower on the stand, makes it easy and comfortable to put on and take off, and saves you from ever bending over. Stores the wand vertically and out of the way, will fit all blowers and sprayers, and keeps your space neat and clean!

****Leaf blower/weed sprayer and accessories not included****

Features...

- Works for any leaf blower or weed sprayer
- Easily mount to any height

Great for...

- Garage
- Storage shed

GPS Kit & Tape

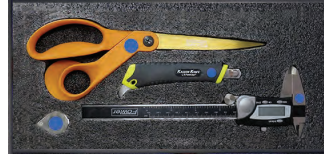

3/4" x 59' TAPE

9/16" CAPS

3/8" CAPS

Color code
any work
space!

The GPS Kit and Tape allows you to quickly identify tools by department or area. The color of the tape and caps allow you to mark any shaped tool quickly and easily! Just wrap it in tape, or stick a dot on it. Make it fast and easy to determine which department tools belong to e.g., wood shop (red), metal shop (yellow). Everything gets put back with no struggle, questions, or missing tools!

Get hooked on Lean!

Read about Paul's Lean journeys and how he applied these principles to his business, health, travel, relationships, and everyday life.

I promise this will not be an intellectual exercise. No psychobabble. I don't understand it and it never helps me anyway. Rather, this is the perspective of an average guy who happens to be in love with Lean and fixing what bugs him. So if simple and practical is your preference, you're in luck! It is for me as well. If you have a modicum of curiosity and you want to see how I do life better, then Lean Life is the right book for you.

You don't just learn this and then become perfect and precise in one fell swoop. It is a lifelong journey. There will still be mountains of sloppiness and waste everywhere in everything you do. But what is important is you begin the journey today. When you start being more thoughtful and precise in everything you do, you become a better steward of the resources you have been given. Remember, it is not about perfection. It is about starting the journey to perfection. This is the joy I experience every day, knowing that I am more thoughtful of the gifts that I have been given. Being wasteful benefits no one, but good thinking benefits everyone.

Think all the talk about Lean is a bit boring and all about charts and graphs? Read this lean book and be inspired by how easy and fun it can be. No flow charts or graphs, just the real life journey of one company and the astounding results Lean thinking can produce. Take a few hours, read 2 Second Lean and change your life!

If I were to summarize my entire book in one word it would be "Ferrari." The secret to excellent health-the answer-is to treat your body like you would treat a Ferrari. A Ferrari is the archetype of a sports car, one of the most precise and high-performance machines ever made. It is exotic fast agile and beautiful. If you take the same care of your body as you would a Ferrari-using only the best fuel and regularly taking it to the best mechanic for maintenance-your body will give you ten times what you put into it, for the duration of your life. So ask yourself, "Do I treat my body like a Ferrari or a Pinto?"

As you start this book, I want you to understand the two main parts of my Lean Travel philosophy. First, what you give in the travel experience will have a profound impact on how much you enjoy it. Second, the less you bring and the lighter you travel, the more you will be able to feel and adapt to the fantastic trade winds of the travel experience. So travel with a full heart and light suitcase.
