## Sink Quick Reference Guide

### Practical Ingenuity in Action

#### Perfect Drain®

Sinks featuring the Elkay Perfect Drain have a seamless look and feel. The edgeless drain eliminates the gap around the drain for a cleaner, more hygienic sink; food and gunk go right down the drain.

#### Aqua Divide™

With Aqua Divide™, the low center divider allows pan handles to extend over center and makes it easy to wash large items, like baking sheets, over both bowls.

#### Workstation Sinks

Available in stainless steel, quartz and fireclay, workstation sinks are designed for efficiency. Slide accessories along built-in ledge to optimize your workspace; go from meal prep to clean up in seconds.

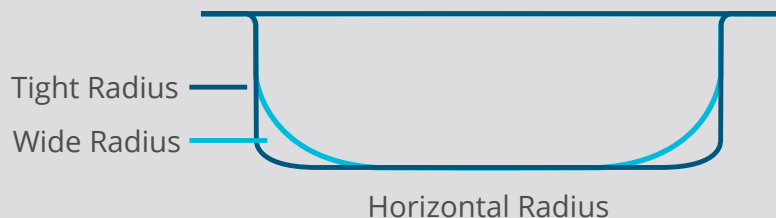

#### SurePrep™

Exclusive SurePrep accessory ledge available on Quartz Luxe® workstation sinks ensures cutting board won't budge while you're using it.

### Did you know?

Sinks with tight corners and a flat bottom provide more usable space in the bowl. They generally hold more than sinks with wide corners, and items like wine glasses are less likely to tip over and break.

## Stainless Steel Sink Finishes

(See individual sink SKUs for finish availability.)

### Lustrous Satin

This striking uniform finish is scratch resistant to heavy-duty use. Deep scratches are repairable with an Elkay stainless steel restoration kit. The fine linear grain reflects light evenly for high shine. Available on Lustertone Classic sinks.

### Luminous Satin

A resilient finish that is scratch resistant, standing up to everyday use. Deep scratches are repairable. The linear grain radiates the light. Available on Lustertone Iconix sinks.

### Polished Satin

A soft, linear grain provides a radiant finish. Available on Crosstown sinks.

### Brushed Satin

A light, linear grain lends a subdued, casual feel to this finish. Available on Celebrity sinks.

## Care and Cleaning

For complete care and cleaning guides, visit [helpcenter.elkay.com](http://helpcenter.elkay.com) and select the "Sinks (Commercial & Residential)" module to view our comprehensive care and cleaning guides.

### General Sink Care and Cleaning

- For daily cleaning, use an ordinary mild detergent and soft cloth to rinse and dry the sink to prevent buildup of mineral deposits from the water. **DO NOT** use steel wool pads.
- Soft abrasive cleaners may be used when necessary (blue Scotch-Brite™ Non-Scratch pads\*). **DO NOT** use strong abrasive cleaners (green Scotch-Brite pads) as they will scratch and dull the surface.
- It is recommended to use an Elkay bottom grid or rinsing basket to protect your sink. **DO NOT** use dish mats as these can trap soap and dirt making sink maintenance more time-consuming and susceptible to cultivating harmful bacteria.
- Run cold water while pouring boiling water into sink.
- Avoid storing open containers of household cleaners and chemicals that have chloride beneath the sink: bleach, acid, drain cleaners and toilet bowl cleaner. Vapor emission from chlorides can cause corrosion and pitting to the exposed stainless steel and other metals, such as faucet water supply lines.
- **DO NOT** leave standing water in your sink, especially if the water contains anything that could stain the sink (i.e. coffee or tea).

### Stainless Steel Sinks

- **DO NOT** use steel soap pads, steel wool or wire brushes; particles can adhere to a stainless steel sink surface and will eventually rust. If an abrasive pad must be used, Elkay recommends the blue Scotch-Brite Non-Scratch pads.
- **DO NOT** use cleaners containing ammonia, bleach or other harsh chemicals. Chemicals containing chlorides (bleach) are particularly damaging to stainless. If used, rinse the surface immediately to prevent corrosion.

## Care and Cleaning

### Quartz Sinks

- Use mild abrasive cleaners to clean your quartz sink. Strong abrasive cleaners can dull the color and finish of your sink.
- **DO NOT** use abrasive pads like steel wool or wire brushes, as these can damage the finish of the sink. The only abrasive Elkay recommends is the blue Scotch-Brite Non-Scratch scrub sponge.
- Stubborn stains and water marks can be wiped with the eraser pad in Elkay's cleaning kit or a Mr. Clean® Magic Eraser\* either with water or a 50/50 white vinegar and water solution. Towel dry with a cotton cloth.
- **DO NOT** leave dirty dishes, coffee grounds or other staining materials in your quartz sink as they can negatively impact the color and finish of your sink.

### Fireclay Sinks

- For difficult stains, a 50/50 water bleach solution or nonabrasive cleaners (follow cleaner manufacturer's instructions) can be used. Rinse and towel dry the sink afterward. **DO NOT** leave bleach or bleach solution sitting in the sink.
- **DO NOT** set hot pans directly into sink.
- Though fireclay sinks are resilient, they can be chipped or cracked with metal or stone objects. Use caution and never throw or drop anything into a fireclay sink.
- Stubborn stains and water marks can be wiped with the eraser pad in Elkay's cleaning kit or a Mr. Clean® Magic Eraser either with water or a 50/50 white vinegar and water solution. Towel dry with a cotton cloth.

### Liv Filtered Water Dispenser

- **Stainless Steel Surfaces:** Use an ordinary, mild detergent and soft cloth. Wipe the surface and towel dry.
- Steel soap pads should never be used; particles can adhere to a stainless steel surface and will eventually rust.
- Light scratches are normal for stainless steel. They will blend into the uniform finish pattern with time.
- **Glass Surfaces:** Use an ordinary, mild glass cleaner and microfiber cloth. Wipe the surface and towel dry.
- Harsh abrasive cleaners should not be used.

*\*Mr. Clean® Magic Eraser is a registered trademark of Procter & Gamble and is not affiliated with Elkay.*

### General Faucet Care and Cleaning

- For daily cleaning, wipe faucet well with a damp cloth and dry thoroughly with a soft towel. Drying helps prevent water spots.
- **DO NOT** use cleaning products containing ammonia, bleach, alcohol or other harsh chemicals. **DO NOT** use any form of abrasives (e.g. abrasive sponges or steel wool), which are damaging to metal surfaces.
- Faucet spray faces may become dirty over time. To clean Elkay's easy-clean rubber spray face, rub a finger against it. Recommended daily.

## STAINLESS STEEL

Elkay Stainless Steel sinks are built to last and designed to stand out, with a size, style and finish to match any space. Whether you need drop-in, undermount or farmhouse, ADA compliant or extra large, stainless steel never goes out of style.

### OFFSET DRAIN

Drain placement provides more usable space on the bottom of the sink and in the cabinet below.

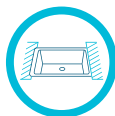

### LARGE CAPACITY

Straight sidewalls give the sink a flat bottom and offer more usable space for stacking, soaking and washing dishes; easy to clean.

### SLIM RIM

Install sink as a drop-in or undermount; ultrathin, flat rim virtually eliminates the barrier between sink and counter for a clean look.

### QUIET

Sound-deadening materials minimize sound and vibration for a quieter time at the sink.

- Available as undermount, farmhouse and workstation
- Farmhouse models available in a reversible style, offering the option of a traditional flat apron front or an apron front with a decorative bar feature across the front
