INSTALLING DECORATIVE HARDWARE FOR THE FIRST TIME

When you have decided where you want your hardware placed, use a ruler or cabinet hardware template to mark the drilling locations.

You'll want the placement to be the same across all cabinets for a consistent look. Once all the locations are marked you are ready to use your 3/16in. drill bit and drill the holes.

TOOLS REQUIRED:

- ① Ruler or Cabinet Hardware Template
- ② Power Drill

Where you place your hardware on a cabinet is entirely up to you. You can see some traditional placement of hardware to the right.
